

TITLE: EASTERN STATES AIR ENVIRONMENT

I. VIEWPOINT:

The viewpoint for the Eastern States Air Environment trial case study would be Gloria Rooney's. The mentioned person is the president of the said airline company in the later 1990s.

II. TIME CONTEXT:

As stated in the provided material of the trial case study, the time context would be in the year 2000.

III. PROBLEM STATEMENT:

The trial case study aims to determine the service quality that Eastern Air States Environment can provide in order to not just simply stay the course of doing well but instead to perform even better in the airline industry. It aims to answer the question: How can Eastern States Air Environment improve their service quality to do better in the airline industry?

IV. STATEMENT OF THE OBJECTIVE:

- Improve customer satisfaction by providing quality services such as providing reasonable airfare yet producing a convenient and a satisfying experience to all passengers that can cater to the passengers needs and wants while flying with the airline.
- Prevent and reduce the negative feedback of the passengers by responding quickly to issues and keeping up with the demand.
- Improve the performance of the airline crews.

V. AREAS OF CONSIDERATION:

STRENGTHS	WEAKNESSES
• Popular as "the airline that put the Frills back into Flying" • The airline has loyal customers • Able to come up with strategies that can cater to the growing needs and wants of the passengers	• Several competitors providing same quality and airfare • Poor cabin crew performance • Service provided for economy and first-class passengers differs from one another

Participatory Case Study Work Sion Williams, John Keady, 2021-01-03 Participatory Case Study Work shows academic co-researchers how to adapt and implement their methods so that data collection and analysis is authentically participatory. At the heart of this text is advocating a participatory approach to case study work with co-construction as a catalyst for shared understanding and action in advancing ageing studies. Whilst case study research has a relatively long tradition in the canon of research methodologies little attention has so far been paid to the importance and

value of participatory case study work This is surprising as its egalitarian and democratic value base naturally lends itself to the co production and co creation of personal and collective theory drawn directly from lived experience The book brings together over 15 years worth of participatory case study work in ageing studies in which the editors have been actively involved as either front line researchers or as supervisors to PhD and MPhil studies adopting the methodology and from where each of the contributors is selected Real life case examples are shared in the main chapters of the book and they provide direction as to how learning can be applied to other settings The chapters also contain key references and recommended reading This volume will appeal to undergraduate and postgraduate students as well as postdoctoral researchers interested in fields such as research methods qualitative methods ageing studies and mental health studies

Climate Change and Groundwater: Planning and Adaptations for a Changing and Uncertain Future Robert Maliva, 2021-01-26 This book attempts to bridge the gap between the climate change research and decision making communities by exploring the impacts of climate change on groundwater from a more applied perspective Global climate change will impact groundwater demands quality and available supplies and rising sea level may cause water tables to rise inundating low lying coastal areas Groundwater will increasingly be needed to perform a stabilization role in mitigating fluctuations in the supply of surface waters serving as a buffer against droughts Climate change has become a frequent subject in the mass media and the academic literature on the subject is now enormous An impediment to climate change adaptation with respect to water is a poor link between the climate change research community and the actual decision makers responsible for water supply planning Key issues explored are methods for evaluating potential impacts on climate change on local groundwater systems the adaptation of decision making process and how climate change adaptation can be mainstreamed into the water supply planning

Case Studies in Public Governance June Gwee, 2013-06-19 This book makes available original case studies on how institutions developed in Singapore Up until now these case studies have been used exclusively in Singapore to teach public governance and have been well received in the Singapore Civil Service College s milestone programmes With this publication more will be able to access this material Students researchers and policy makers can now use these case studies for pedagogy or to derive insights on Singapore s approach on governance Designed around the theme of building institutions the case studies also present facets of how institutions developed which are universal to management studies These case studies highlight a core aspect in the development of institutions namely how people and organisations change the culture of institutions how leaders influence their organisations and how policies define the systems that build institutions The book contains 5 case studies each profiling a unique sector and key institution in Singapore They present how public agencies and leaders helped to build Singapore institutions over the last forty years Although there are more cases studies on management and strategy than public policy and administration there is growing interest in Asian case studies and more specifically case studies on Singapore public governance This collection of case
