Target Potus English Edition:

The Contemporary Law of Targeting Ian Henderson, 2009-10-26 Armed conflict is about using force to achieve goals As international humanitarian law regulates the means and methods that a belligerent may adopt to achieve its goals there will inevitably be disagreements over the interpretation of that law As for the rules that regulate targeting the main difficulties arise over what is a lawful target and what is proportional collateral damage This book provides a detailed analysis of those issues Also a chapter is dedicated to considering how United Nations Security Council sanctioning of participation in an armed conflict might affect the range of lawful targets available to a belligerent Finally a process is described by which legal responsibility for targeting decisions can be assessed in a complex decision making environment **Economic Sanctions**

and Presidential Decisions A. Drury, 2005-11-04 Economic sanctions panacea symbolic but ineffectual or useless and counterproductive While these questions have framed much the existing debate Drury digs deeper to why foreign policy leaders and especially the president choose sanctions of which type whether to sustain them and when to terminate them Skilfully integrating domestic and international factors and placing the analysis of sanctions directly into the mainstream of strategic studies and decision theory this book breaks new ground with its innovative argument and thorough testing using a variety of databases **Targeting Terrorists** Avery Plaw, 2016-04-01 Targeting Terrorists A License to Kill examines the

political history and ethics of targeted killing Avery Plaw s analysis addresses the questions of moral political and legal justification in the context of the current war on terror and of legitimate illegitimate forms of counter terrorism more generally Given the increasing number of terrorist targetings conducted around the world today and the virtual absence of a sustained public and scholarly debate over the practice this study makes a crucial contribution to the examination of an increasingly important and troubling subject Incorporating insights and arguments from a range of disciplines and approaches and offering an excellent balance between theory and case studies this book is highly relevant for courses on ethics politics international relations and international law [The Failure to Produce White House E-mails](#) United States.

Congress. House. Committee on Government Reform, 2000 *Presidential Road Show* Diane J. Heith, 2015-12-03 In The Presidential Road Show Public Leadership in an Era of Party Polarization and Media Fragmentation Diane J Heith evaluates presidential leadership by critically examining a fundamental tenet of the presidency the national nature of the office The fact that the entire nation votes for the office seemingly imbues the presidency with leadership opportunities that rest on appeals to the mass public Yet presidents earn the office not by appealing to the nation but rather by assembling a coalition of supporters predominantly partisans Moreover once in office recent presidents have had trouble controlling their message in the fragmented media environment The combined constraints of the electoral coalition and media environment influence the nature of public leadership presidents can exercise Using a data set containing not only speech content but also the classification of the audience Diane J Heith finds that rhetorical leadership is constituency driven and targets audiences

differently Comparing tone content and tactics of national and local speeches reveals that presidents are abandoning national strategies in favor of local leadership efforts that may be tailored to the variety of political contexts a president must confront

Whitford, Jeff Yates, 2009-11 The bully pulpit is one of the modern president's most powerful tools and one of the most elusive to measure Presidential Rhetoric and the Public Agenda uses the war on drugs as a case study to explore whether and how a president's public statements affect the formation and carrying out of policy in the United States When in June 1971 President Richard M Nixon initiated the modern war on drugs he did so with rhetorical flourish and force setting in motion a federal policy that has been largely followed for more than three decades Using qualitative and quantitative measurements Andrew B Whitford and Jeff Yates examine presidential proclamations about battling illicit drug use and their effect on the enforcement of anti drug laws at the national state and local level They analyze specific pronouncements and the social and political contexts in which they are made examine the relationship between presidential leadership in the war on drugs and the policy agenda of the Drug
