These open-ended task cards encourage older students to think and work like scientists. Task Cards measure 4 by 6 inches. The limited size of each card leaves less room to tell students exactly what to do and therefore more freedom for students to follow their own experimental strategies. Thorough, thoughtful teaching notes accompany each card, and the task cards are also reprinted 2 to a page at the back of each book for easy photocopying.

Learning at Home, PreK-3 Ann C. Barbour, 2009-10-15. This book is a great resource for educators and families and is filled with practical ideas to engage everyone in the fun of learning. Susan Stewart, Curriculum Consultant, Supervisor, Adjunct Instructor, Stark County Education Service Center, Ashland University. Wonderful! The author has done an excellent job of providing a wealth of materials for the educator and/or parent as well as answering some tough questions about home learning for young children. Ken Klopach, Art and Gifted Educational Consultant, Chicago Public Schools, IL. Create a strong home-school connection through family activities that extend learning. Because families play a critical role in helping young children develop a strong academic foundation and a love of learning, teachers need to involve caregivers as partners in education and extend learning to the home environment. *Learning at Home, PreK-3* helps teachers plan developmentally appropriate, creative homework activities that encourage positive learning experiences and reinforce important home-school connections. Packed with hundreds of engaging and interesting activities, this resource expands the concept of what constitutes homework and family involvement. Focused mainly on social interactions within the family, these playful fun activities relate directly to children's own experiences. Employ concrete, easily accessible materials. Include shared reading experiences, family projects, and games. Integrate developmental and content areas including language and literacy, mathematics, science, and the creative arts. Promote literacy learning in homes where English is not the primary language. These tools and strategies help teachers reach out to families and reinforce learning both in school and at home, ensuring that all students have the chance to achieve and become lifelong learners.
