I believe that the E Symposium on Industrial and Systems Engineering (ISE) should promote an integrated learning environment that are academically rigorous through its academic advisory programs that provide mathematics, sciences, and computer science as additional rather than engineering subjects. Integrated concepts have led to a profound impact. Physics programs, where students receive the interdisciplinary engineering and technological changes in technology. I believe that ISE should have the opportunity to expand on the knowledge I was introduced to as a child. I am excited to be able present to that learning system as the E Symposium on Industrial and Systems Engineering through the integration of the academic knowledge and my personal/community service as shown in my interdisciplinary activities.
