Writing History as a Prophet Elisabeth Wesseling, 1991-12-05 This is a postmodernist history of the historical novel with special attention to the political implications of the postmodernist attitude toward the past Beginning with the poetics of Sir Walter Scott Wesseling moves via a global survey of 19th century historical fiction to modernist innovations in the genre Noting how the self reflexive strategy enables a novelist to represent an episode from the past alongside the process of gathering and formulating historical knowledge the author discusses the elaboration of this strategy introduced by novelists such as Virginia Woolf and William Faulkner in the work of among others Julian Barnes Jay Cantor Robert Coover and Graham Swift Wesseling also shows how postmodernist writers attempt to envisage alternative sequences for historical events Deliberately distorting historical facts authors of such uchronian fiction like Thomas Pynchon Ishmael R Read Salman Rushdie and Gunter Grass imagine what history looks like from the perspective of the losers rather than the winners

The Nation and Athenæum, 1915 **Soul Force** Suzanne Franco, 2018-04-06 Unlike most teenagers her age in the face of danger and adversity Valliamma Mudliar showed no sign of fear Under the hardship of white oppression in South Africa during the early 1900s Valliamma and her Satyagrahi sisters are desperate to carry out their mission as they bravely march along endless dirt roads pressing on across forbidden provincial borders The Regime's brutal and unforgiving law enforcement waiting for them weapons in hand Valliamma you do not regret having gone to jail Mohandas Gandhi asked the ailing girl I am now ready to go to jail again if arrested even in my fragile state Valliamma replied peacefully Undaunted Valliamma felt privileged to be a part of Gandhi's South African Satyagraha force But can such dedication sustain her strength and courage to complete her treacherous journey At sixteen Valliamma digs deep to undertake a dangerous course that unimaginably changes her life as well as the lives of a Nation Valliamma found herself no longer a child not yet a woman but an activist *Human Forms* Ian Duncan, 2024-12-17 A major rethinking of the European novel and its relationship to early evolutionary science The 120 years between Henry Fielding's *Tom Jones* 1749 and George Eliot's *Middlemarch* 1871 marked both the rise of the novel and the shift from the presumption of a stable universal human nature to one that changes over time In *Human Forms* Ian Duncan reorients our understanding of the novel's formation during its cultural ascendancy arguing that fiction produced new knowledge in a period characterized by the interplay between literary and scientific discourses even as the two were separating into distinct domains Duncan focuses on several crisis points the contentious formation of a natural history of the human species in the late Enlightenment the emergence of new genres such as the Romantic bildungsroman historical novels by Walter Scott and Victor Hugo that confronted the dissolution of the idea of a fixed human nature Charles Dickens's transformist aesthetic and its challenge to Victorian realism and George Eliot's reckoning with the nineteenth century revolutions in the human and natural sciences Modeling the modern scientific conception of a developmental human nature the novel became a major experimental instrument for managing the new set of divisions between nature and history individual and species human and biological life that replaced the ancient schism between animal body and immortal soul The first book to explore the interaction of European fiction with the natural history of man from the late Enlightenment through the mid-Victorian era *Human Forms* sets a new standard for work on natural history and the novel **The Soul of the North** Neil Kent, 2001 This text makes use of the unique and extant cultural forms of architecture and the visual arts as well as statistics and other forms of documentary evidence **Genocidal Nightmares**

Abdelwahab El-Affendi,2016-07-28 This book offers a novel and productive explanation of why ordinary people can be moved to engage in destructive mass violence or terrorism and the abuse of rights often in large numbers and in unexpected ways Its argument is that narratives of insecurity powerful horror stories people tell and believe about their world and others can easily make extreme acts appear acceptable even necessary and heroic As in action or horror movies the script dictates how the hero acts The book provides theoretical justifications for this analysis building on earlier studies but going beyond them in what amount to a breakthrough in mapping the context of mass violence It backs its argument with a large number of case studies covering four continents written by prominent scholars from the relevant countries or with deep knowledge of them A substantial introduction by the UN s Special Advisor on the Prevention of Genocide demonstrates the policy relevance of this path breaking work

Nation and Novel Patrick Parrinder,2008-09-18 What is English about the English novel and how has the idea of the English nation been shaped by the writers of fiction How do the novel s profound differences from poetry and drama affect its representation of national consciousness Nation and Novel sets out to answer these questions by tracing English prose fiction from its late medieval origins through its stories of rogues and criminals family rebellions and suffering heroines to the present day novels of immigration Major novelists from Daniel Defoe to the late twentieth century have drawn on national history and mythology in novels which have pitted Cavalier against Puritan Tory against Whig region against nation and domesticity against empire The novel is deeply concerned with the fate of the nation but almost always at variance with official and ruling class perspectives on English society Patrick Parrinder s groundbreaking new literary history outlines the English novel s distinctive sometimes paradoxical and often subversive view of national character and identity This sophisticated yet accessible assessment of the relationship between fiction and nation will set the agenda for future research and debate
