Papers Relating to Parga Great Britain. Colonial Office,1820 *The Acquisition of Africa (1870-1914)* Mieke van der Linden,2016-10-05 Over recent decades the responsibility for the past actions of the European colonial powers in relation to their former colonies has been subject to a lively debate In this book the question of the responsibility under international law of former colonial States is addressed Such a legal responsibility would presuppose the violation of the international law that was applicable at the time of colonization In the Scramble for Africa during the Age of New Imperialism 1870 1914 European States and non State actors mainly used cession and protectorate treaties to acquire territorial sovereignty imperium and property rights over land dominium The question is raised whether Europeans did or did not on a systematic scale breach these treaties in the context of the acquisition of territory and the expansion of empire mainly through extending sovereignty rights and subsequently intervening in the internal affairs of African political entities *British and Foreign State Papers* Great Britain. Foreign Office,Great Britain. Foreign and Commonwealth Office,1918 *The Continental Shelf and the Exclusive Economic Zone / Le plateau continental et la zone économique exclusive* Donat Pharand,Umberto Leanza,2022-02-22 This volume focuses on both the general aspects of two of the most typical institutions introduced by the new Law of the Sea and the specific aspects related to the geographic and economic circumstances of Italy and Canada It is divided into two parts The first part deals with the delimitation of maritime boundaries especially with respect to the continental shelf and the exclusive economic zone The problem is approached from both a theoretical and a practical point of view in particular in analyzing not only the more well known controversies in delimitation solved by international agreements or by international courts but also still unsettled disputes in which Italy and Canada are involved The second part deals with the legal regime of the continental shelf and the exclusive zone and the activities in particular exploration and exploitation carried out in them The same approach as in Part One is used in juxtaposing Italian and Canadian views on relative regulation Indeed the volume brings together the diverse legal experience of the two countries Italy and Canada resulting from the different geographic political and economic conditions found in each It is enough to think that Italy is surrounded on three sides by a closed or semiclosed sea the Mediterranean while Canada borders on the Atlantic Pacific and Arctic Oceans The volume was financed by the Italian National Research Council CNR and edited by Donat
