Abstract

Reconciliation: The South African Truth and Reconciliation Commission's contribution to dealing with the past, reconciling and building the nation

International experience has shown that addressing past human rights violations is a necessary step in the process of reconciliation and nation building. How was post-apartheid, democratic South Africa to deal with its past human rights violations? Would it go the way of retribution in order to settle the scores of the past? Would it go the way of blanket amnesty in the name of political expediency and ignore the fate of its victims?

The Promotion of National Unity and Reconciliation, Act 34 of 1995, which established the TRC envisaged that national unity and reconciliation could be promoted by determining the extent, and the fate and whereabouts of the victims, of such human rights violations; giving opportunity for story-telling; recommending reparations and measures to prevent future violations; and by providing a full report. In order to do so the Commission had the power to grant amnesty to those making such disclosures.

This article, while not uncritical of the Commission, is generally positive about its contribution both in attempting to deal with the past, and in building a democratic, human rights and restorative justice culture based on the rule of law. It examines the definitions of reconciliation that emerged during the Commission in the light of a Christian definition where

South African Truth And Reconciliation Report:

Truth and Reconciliation in South Africa Hugo van der Merwe, Audrey R. Chapman, 2008-02 Of the truth commissions to date the South African Truth and Reconciliation Commission TRC has most effectively captured public attention throughout the world and provided the model for succeeding bodies Although other truth commissions had preceded its establishment the TRC had a far more expansive mandate to go beyond truth finding to promote national unity and reconciliation to facilitate the granting of amnesty to those who made full factual disclosure to restore the human and civil dignity of victims by providing them an opportunity to tell their own stories and to make recommendations to the president on measures to prevent future human rights violations

The Limits of Transition: The South African Truth and Reconciliation Commission 20 Years on Mia Swart, Karin van Marle, 2017-08-28 The South African Truth and Reconciliation Commission was a noble attempt to begin to address the continuing traumatic legacy of Apartheid This interdisciplinary collection critiques the work of the TRC 20 years since its establishment Taking the paralysing political and social crises of the mid 1990s in South Africa as starting point the book contains a collection of responses to the TRC that considers the notions of crisis judgment and social justice It asks whether the current political and social crises in South Africa are linked to the country's post apartheid transitional mechanisms specifically the TRC The fact that the material conditions of the lives of many Apartheid victims have not improved forms a major theme of the book Collectively the book considers the unfinished business of the TRC

Truth & Reconciliation in South Africa Charles Villa-Vicencio, Fanie Du Toit, 2006 This series of articles by leading researchers activists and government officials describes the response of government and other agencies to the unfinished business of the Truth and Reconciliation Commission It also reflects on the role of the media art and cultural exponents who grappled with South Africa's past

Truth and Reconciliation in South Africa Lyn S. Graybill, 2002 Graybill mind and human interaction U of Virginia provides students not only the facts about the South African Truth and Reconciliation Commission but also the broader context in which it operated She asks whether it led to reconciliation and healing what criteria were used to decide whether to pardon or punish whether politics necessitated the compromise and other questions Annotation copyrighted by Book News Inc Portland OR

Photography, Truth and Reconciliation Melissa Miles, 2020-08-05 Photography Truth and Reconciliation charts the connections between photography and a crucial issue in contemporary social history The book examines the prevalence of photography in cultural responses to processes of truth and reconciliation and argues that photographs are a valuable means through which stories can be retold and historiography can be rethought Five compelling case studies from Argentina Canada Australia South Africa and Cambodia underscore the special role that this medium has played in facilitating processes of recovery and in reconstructing suppressed histories even when a documentary record of the events does not exist The diverse practices addressed in this book including artistic protest institutional archival legal and personal photography prompt a new consideration of photography's links to presence place

time spectatorship and justice Collectively these practices attest to photography's key role in transitional justice and in shaping historical understanding internationally Important reading for students taking photography visual culture history and media studies courses Photography Truth and Reconciliation explores key historical and theoretical themes including photography and testimony international discourses on human rights and justice and problematic notions of public and collective memory The introduction and conclusion of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

Transforming Societies after Political Violence Brandon Hamber,2009-06-12 Paraphrasing Descartes we may say that one method is to take the reader into your confidence by explaining to him how you arrived at your discovery the other is to bully him into accepting a conclusion by parading a series of propositions which he must accept and which lead to it The first method allows the reader to rethink your own thoughts in their natural order It is an autobiographical style Writing in this style you include not what you had for breakfast on the day of your discovery but any significant consideration which helped you arrive

at your idea In particular you say what your aim was what problems you were trying to solve and what you hoped from a solution of them The other style suppresses all this It is didactic and intimidating J W N Watkins Confession is Good for Ideas Watkins 1963 pp 667 668 I began writing this book over 12 years ago It was started in the midst of the South African Truth and Reconciliation Commission TRC It is an exploration of what I have learned from the process During the TRC I was working at the Centre for the Study of Violence and Reconciliation CSVR in South Africa primarily with people who testified before the Commission but also on a range of research and policy initiatives in the area that is now called transitional justice I have written about the TRC process extensively *Understanding African Philosophy* Richard H. Shea, 2000 In the latter half of the 1990s South Africa's Truth and Reconciliation Commission TRC offered the country the chance to build a better future by facing up to its past Amid saturation media coverage victims of human rights abuses told their harrowing stories and perpetrators confessed to horrendous acts Meanwhile the commissioners grappled with decisions that would not only apportion responsibility and grant or deny amnesty but also have a profound political and social impact To this highly charged controversial subject Dorothy Shea brings a rare combination of objectivity thoroughness and a firm grasp of both the principles and the political interests at stake She begins by investigating the origins of the TRC in South Africa's transition from apartheid to democracy and she examines the extent to which it learned from the experiences of earlier Latin

American commissions Then she focuses on how the politics of the TRC were played out in issues such as amnesty reparations and prosecutions Her report on the TRC offers a generally positive assessment and explains not only how South Africa measured up but also why Finally Shea draws lessons from the TRC experience that may help to inform future efforts to shape and establish truth commissions in other transitional societies

Reconciliation Discourse Annelies Verdoolaege,2008 This volume is a research monograph analysing the South African Truth and Reconciliation Commission TRC from an ethnographic linguistic point of view The central proposition of this book is that the TRC can be regarded as a mechanism that leads to the hegemony of specific discourses thus exercising power The analysis illustrates how through a certain type of reconciliation discourse constructed at the TRC hearings a reconciliation oriented reality took shape in post TRC South Africa Basically the study points to the long term implications a truth commission can exert on a traumatised post conflict society The book is unique on several levels TRC discourse is explored in depth on the basis of personal stories from TRC testifiers a combination of Poststructuralist and Critical Discourse Analysis approaches form the theoretical foundations and an extensive bibliography provides an impressive database of TRC publications
