are in the middle of a mass extinction of biodiversity with devastating consequences for our planet Accounting for

Biodiversity explores the need for companies to actively protect conserve and improve biodiversity within their sphere of

operation The 14 chapters written by a selected team of experts investigate the ways in which companies are embracing

their responsibility through a variety of biodiversity initiatives and innovative models designed to improve the recording

reporting and valuing of biodiversity Global case studies look at biodiversity accounting in Africa Asia Australasia Europe and

South America Overall this book provides a comprehensive set of reflections on accounting for biodiversity and

recommendations for the future This book is essential reading for all those interested in the contribution that accounting can

make to the preservation of biodiversity As we see increasing awareness of the importance of sustainability and ecological

responsibility in business activity it is relevant and should prove informative to students managers accountants and those in

business more generally It is also important for all those interested in conserving biodiversity The United States Catalog
