Rogue Financier Himm Florian, 2012-11-15 His reputation is legendary His life an adventure His pursuers merciless Florian Himm A 6 foot 5 colossus A wrecking ball An unscrupulous hedge fund manager The ugly face of the new turbo charged capitalism A mover and shaker at 26 of millions for South American governments and the fabulously wealthy A cold hearted mercenary he disemboweled companies auctioning off the best pieces to the highest bidder A man who had scores of homes two jets and hundreds of millions of dollars but who still didn't have one thing enough instead he was driven to consume beyond excess As if in a daze Florian Himm forged through his life with brutal efficiency It began in Oberursel a small town in Germany and led him through Harvard into the heart of the financial markets Both brilliant and charismatic his career took off like a comet in the world's toughest business In the course of his working life he profited from the bankruptcy of the Vulkan shipping company in Bremen rehabilitated the German soccer club Borussia Dortmund and was gunned down in Venezuela But even then after a close shave with death Florian Himm knew only one way forward the race to the top Until his recklessness caught up with him in a hard beat It's the story of a brilliant financial juggler a runaway a fugitive the notorious enfant terrible of the European financial world

Life Strategies (draft), Part two: Literature Florentin Smarandache, 2008-01-01 Think like a man of action act like a man of thought says H. Louis Bergson This small book collects some ideas hints and methods in various aspects of art and literature You will find novel ideas for experimental literature new genre of poems and countless other things about nothing If for nothing else the random sentences listed here at least can stimulate further thoughts and ideas for instance young writers and artists may find plenty of interesting ideas for their next literary work or best selling novels in Experimental Literature section In a sense this book itself is an experimental one Needless to say the readers may find that some of these ideas are quite absurd or seemingly outlandish just like the idea of improper courses in Umberto's Foucault Pendulum where the personages discuss possibility to teach absurd courses such as City planning for Gypsies etc I started to write down such ideas since I was a high school student and continue even today I always bear with me a small pen and small notebook where I write in the plane or driving my car or even in class room But I hope that despite three decades of postponement this small book will keep on inspiring the reader as good ideas will always be worth to ponder
