The Art of Opportunity offers a path toward new growth providing the perspective and methods you need to make innovation happen. Written by a team of experts with both academic and industry experience and a client roster composed of some of the world's leading companies, this book provides you with the necessary tools to help you capture growth instead of chasing it. The visual frameworks and research-based methodology presented in *The Art of Opportunity* merge business design thinking and strategic innovation to help you change your growth paradigm. You'll learn creative and practical methods for exploring growth opportunities and employ a new approach for identifying what opportunity looks like in the first place. Put aside the old school way of focusing on new products and new markets to instead applying value creation to find your new opportunity, craft your offering, design your strategy and build new growth ventures. The changing business ecosystem is increasingly pushing traditional thinking out to pasture. New consumers and the new marketplace are demanding a profound adjustment to the way companies plan and execute growth strategies. This book gives you the tools to create your roadmap toward the new state of growth and gain invaluable insight into a new way of thinking. *The Art of Opportunity* will help you to start looking at business growth from a new perspective. Create value for the customers, company and ecosystem. Innovate strategically and design new business models. Develop a new active business design thinking approach to innovation. Your company's goal is to grow and to turn non customers into customers. The old ways are becoming less tenable and less cost effective. *The Art of Opportunity* outlines the new growth paradigm and gives you a solid framework for putting new ideas into practice.

Living Labs David V. Keyson, Olivia Guerra-Santin, Dan Lockton, 2016-09-28. This book presents the results of a multi annual project with sustainable Living Labs in the United Kingdom, Sweden, Germany and the Netherlands. Living Labs as initiated by the authors have proved to be very promising research design co creation and communication facilities for the development and implementation of sustainable innovations in the home. The book provides an inspiring introduction to both the methodology and business modelling for the Living Lab facilities. Understanding daily living at home is key to designing products and services that support households in their transition to more sustainable lifestyles. This book not only explores new ways of gaining insights into daily practices but also discusses developing and testing design methods to create sustainable solutions for households. These new methods and tools are needed because those available are either ineffective or cause rebound effects. Intended for researchers and designers with an interest in the transition to sustainable lifestyles, it also appeals to company leaders interested in new ways of developing sustainable innovations and offers suggestions for effectively applying Living Labs for sustainable urban development.

Drawing Thought Andrea Kantrowitz, 2022-10-11. Drawing as a tool of thought: an investigation of drawing cognition and creativity that integrates text and hand drawn images. Drawing is a way of constructing ideas and observations as much as it is a means of expressing them. When we are not ready or able to put our thoughts into words, we can sometimes put them down in arrangements of lines and marks. Artists, designers, architects and others draw to generate, explore and test perceptions and mental models. In *Drawing Thought*, artist

educator Andrea Kantrowitz invites readers to use drawing to extend and reflect on their own thought processes She interweaves illuminating hand drawn images with text integrating recent findings in cognitive psychology and neuroscience with accounts of her own artistic and teaching practices The practice of drawing seems to be found across almost all known human cultures with its past stretching back into the caves of prehistory It takes advantage of the ways in which human cognition is embodied and situated in relationship to the environments in which we find ourselves We become more aware of the interplay between our external surroundings and the inner workings of our minds as we draw We can trace moments of perception and understanding in a sketchbook that might otherwise be lost and go back to reexamine and revise those traces later Kantrowitz encourages readers to draw out their own ideas and observations through a series of guided exercises and experiments with her lively drawings and engaging text pointing the way Drawing is a tool for thought in anyone s hands it is creativity in action
