Latane,2015-02-25 have great pleasure in writing this foreword to Dr Latane's book on the Novels of William Boyd The book is a significant contribution to Boyd criticism It has discussed the early the middle and the last phase of Boyd's novels In doing if the author has defined the totality of Boyd's vision Indeed every novel is a part of this totality and the totality is more than a mere sum of the novels The reciprocal relationship between the part and the whole is the crux of novel criticism and the book has given due justice to this aspect Another important feature of the book is the analysis of the postmodernist element in Boyd's novels This critical framework can be used to analysis the postmodernist element in the contemporary Indian novel in English Even going further it can be used to analyse the Postmodernist element in the contemporary Marathi novel A thesis is really acknowledged when it become a source material for the future researchers and comparatives Mr Latane's book has that potential I heartily wish a good reception to the book Dr Prakash Deshpande Kejkar Former Professor of English Shivaji University Kolhapur **E.M. Grydehøj,2021-07-05 This book offers a study of Danish Norwegian Swedish and French crime fictions covering a fifty year period From 1965 to the present both Scandinavian and French societies have undergone significant transformations Twelve literary case studies examine how crime fictions in the respective contexts have responded to shifting social realities which have in turn played a part in transforming the generic codes and conventions of the crime novel At the centre of the book's

analysis is crime fiction's negotiation of the French model of Republican universalism and the Scandinavian welfare state both of which were routinely characterised as being in a state of crisis at the end of the twentieth century Adopting a comparative and interdisciplinary approach the book investigates the interplay between contemporary Scandinavian and French crime narratives considering their engagement with the relationship of the state and the citizen and notably with identity issues class gender sexuality and ethnicity in particular

Books Are Not Life But Then What Is? Marvin Mudrick, 2017-06-14 *Books Are Not Life But Then What Is* demonstrates how much Marvin Mudrick loved life and celebrated the dignity of life in literature It's helpful to be reminded now and then he writes that while novelists persist in their noisy betrayals of human dignity living has a longer history than reading and truth than fiction Mudrick insists on seeing authors and their characters as people and he describes and judges them as frankly as if they were living among us In this collection we meet heroes monsters and every shade of character in between Chaucer Pepys Rochester Boswell Jane Austen and Anne Elliot Dickens and Pecksniff Pushkin Tolstoy Kafka Edmund Wilson and many other novelists scholars and critics We get to know each of them so vivid are Mudrick's quotations and commentary Essay after essay demonstrates that good criticism can amplify both life and literature

Languages of Education Daniel Tröhler, 2012-01-06 In this landmark contribution to the study of the formation of the modern school Daniel Tröhler applies one of the most recognized methods of historical research to an analysis of the language of the academic discipline of education Arguing the value of looking at languages rather than arguments *langues* rather than *paroles* this method of historical research is used to examine the background of different philosophies theories or arguments of education specifically republicanism and Protestantism Tröhler's argument is that such analysis is essential to tracing back educational arguments to the ideological core of their concerns and thus to understanding in international perspective the historical development of education systems and organizations and to evaluating their different theoretical and political approaches and claims Elegantly written with the historian's attention to archival material this book enables the reader to understand the complex and different social cultural religious and political context factors embedded in the thought of schooling and its objects of scrutiny its notions of the child and teacher *Languages of Education* is essential reading for scholars and students across the fields of history and philosophy of education curriculum studies and comparative education
