An Almanac of Contemporary and Continuum of Jurisprudential Restatements 'lai Oshitokunbo Oshisanya, 2022-07-10 A Compendium of Jurisprudential Annotations of Cases with Treaties Statutes Rules and Commentaries

The Middle East, Oil, and the U.S. National Security Policy Donald M. Snow, 2016-03-17 Three interrelated subject areas are at the heart of the current foreign and national security dilemma One is the Middle East which has been the epicenter of most U S policy activity for over a third of a century The second is energy policy particularly as it is affected by the development and exploitation of shale oil and gas reserves in the United States This is linked to the Middle East because it has been American dependence on Middle East petroleum that has created the interest the U S has in this region The third area is military manpower policy and two simultaneous wars in the new century have raised questions about the all volunteer force policy in place since 1972 It is increasingly evident that foreign and defense policy are strained and in need of fresh conceptualization The three areas identified are the most obvious examples of policy dysfunction The key area is the Middle East region As long as the United States remains heavily committed to this part of the world especially with military force and essentially because of its energy needs there will be strains on manpower resources that could force a reexamination of the all volunteer concept At the same time the reduction of U S dependence on Middle Eastern oil loosens the bonds that seem to impel American activism in the region The result could be true opportunities for a less confrontational adversary driven foreign and defense posture

Otherwise, Revolution! Rebecca Tillett, 2018-03-08 Leslie Marmon Silko's 1991 novel Almanac of the Dead is a profound and challenging analysis of late capitalist society in America and more widely and the ways in which powerful minority elites ensure that their power is never challenged nor shared through the complicit discourses of imperialism patriarchy religion medicine science and technology Almanac's exploration of multiple forms of dispossession and resistance is most fully embodied in the two Armies of Justice who are devoted to overturning oppression in all forms and to the restoration of social and economic justice Reading Almanac in the light of the global economic recession of 2008 this study assesses the ways in which Almanac's vision of oppressive capitalism continues to have absolute relevance Perhaps most importantly this study provides a groundbreaking

reading of Almanac for the 21st century comparing Silko's activist armies with recent international popular social justice activism such as the Arab Spring the international Occupy movement and the Indigenous Idle No More movement The World Almanac and Book of Facts 2009 C. Alan Joyce, Sarah Janssen, M. L. Liu, 2008-11 The Almanac provides facts on various issues including Economics statistics noted personalities science and astronomy U S facts and nations of the world **The World Almanac and Book of Facts**, 1995 *Architecture, Materiality and Society* Anna-Lisa Müller, W. Reichmann, 2015-05-27 This book examines the extent to which the insights of STS can be used to analyse the role of architecture in and for social life The contributions examine the question of whether architecture and thus materiality as a whole has agency The book also proposes a theoretical and methodological approach on how to research architecture's agency Reagan, Congress, and Human Rights Rasmus Sinding Søndergaard, 2020-04-16 Demonstrates how the Reagan administration and members of Congress shaped US human rights policy in the late Cold War **Re-Imagining Citizenship Education** Pablo C. Ramirez, 2023-06-01 In this special edition we call attention to the role of Critical Multicultural Citizenship Education CMCE in schools societies and global contexts The fundamental goal of CMCE is to increase not only the students awareness of and participation in the political aspects of democracy but also students abilities to create and live in an ethnically diverse and just community Global migration and increasing diversity within nations are challenging conceptions of citizenship all over the world The percentage of ethnic minorities in nation states throughout the world has increased significantly within the past 30 years The United States Census for example projects that 50% of the population will consist of culturally linguistically racially ethnic and religiously diverse groups by 2050 With an increase growth of diversity within national borders issues concerning educational equity equality and civic engagement have not always been well attended to in educational and societal contexts Growing ethnic diversity in schools society has not automatically led to a dismantling of persistent educational barriers or structural inequalities In the past decade culturally ethnically and linguistically diverse populations have faced barriers impacting their rights as citizens in the United States and international contexts Citizenship and the rights that are associated with being a citizen are re framed when culturally ethnically and linguistically students seek equality In 2020 many urban cities in the United States witnessed Latino Black youth demonstrate peacefully guided by social justice and their civic responsibilities Similarly in international contexts students have demonstrated civil disobedience by expressing concerns about their rights as citizens and the disempowerment of communities We emphatically believe that students in K 12 settings must begin to understand their rights as citizens and also advocate for the rights of others in order for communities in the U S and international contexts to achieve democracy **Fueling Freedom** Stephen Moore, Kathleen Hartnett White, 2016-05-23 Fossil fuel energy is the lifeblood of the modern world Before the Industrial Revolution humanity depended on burning wood and candle wax But with the ability to harness the energy in oil and other fossil fuels quality of life and capacity for progress increased exponentially

Thanks to incredible innovations in the energy industry fossil fuels are as promising safe and clean an energy resource as has ever existed in history Yet highly politicized climate policies are pushing a grand scale shift to unreliable impractical incredibly expensive and far less efficient energy sources Today fossil fuel has become such a dirty word that even fossil fuel companies feel compelled to apologize for their products In Fueling Freedom energy experts Stephen Moore and Kathleen Hartnett White make an unapologetic case for fossil fuels turning around progressives protestations to prove that if fossil fuel energy is supplanted by green alternatives for political reasons humanity will take a giant step backwards and the planet will be less safe less clean and less free Atlantis Rising Magazine - 112 July/August 2015 J. Jeanne Féaux de la Croix,Madeleine Reeves,2023-10-25 This landmark book provides a comprehensive anthropological introduction to contemporary Central Asia Established and emerging scholars of the region critically interrogate the idea of a Central Asian World at the intersection of post Soviet Persianate East and South Asian worlds Encompassing chapters on life between Afghanistan and Kazakhstan Turkmenistan and Xinjiang this volume situates the social political economic ecological and ritual diversity of Central Asia in historical context The book ethnographically explores key areas such as the growth of Islamic finance the remaking of urban and sacred spaces as well as decolonising and queering approaches to Central Asia The volume s discussion of More than Human Worlds Everyday Economies Material Culture Migration and Statehood engages core analytical concerns such as globalisation inequality and postcolonialism Far more than a survey of a world

region the volume illuminates how people in Central Asia make a life at the intersection of diverse cross cutting currents and flows of knowledge In so doing it stakes out the contribution of an anthropology of and from Central Asia to broader debates within contemporary anthropology This is an essential reference for anthropologists as well as for scholars from other disciplines with a focus on Central Asia Simple Solutions to Complex Catastrophes John Braithwaite,2024-02-26 This open access book sets out simple solutions to managing complex catastrophes It focusses on four kinds of crises climate change crime war cascades epidemics and financial crises These catastrophes are conceived as complex and prone to cascade effects This book is optimistic in explaining that there are identifiable simple institutions that international society can strengthen and some simple principles that can help humankind to control the expanding gamut of complex catastrophes that confront the planet including simple stable institutions and regulatory bodies It draws on a wide range of current and past crises and challenges from the Cold War to COVID 19 and from Weapons of Mass Destruction to restorative diplomacy with States like China to provide an urgent and timely path forward Braithwaite argues that improved peacemaking and step by step progress toward abolition of Weapons of Mass Destruction helps prevent environmental pandemic and financial catastrophes His method across four kinds of crises is first to prioritize simple principles and simple institutions that prevent coupled catastrophes from cascading one to the other The next step is to pursue requisite variety in responses by diagnosing dialectically when additional interventions will and will not add value for crisis control Braithwaite argues that minimal sufficiency of deterrence responsive regulation of risks and restorative diplomacy offer superior theoretical foundations than realism in international relations theory and in organizational crime control It speaks to those interested in criminology public policy and international relations political science sociology public health and economics **Accountability for Mass Starvation** Bridget Conley,Alex de Waal,Catriona Murdoch,Wayne Jordash QC,2022-09-01 Famine is an age old scourge that almost disappeared in our lifetime Between 2000 and 2011 there were no famines and deaths in humanitarian emergencies were much reduced The humanitarian agenda was ascendant Then in 2017 the United Nations identified four situations that threatened famine or breached that threshold in north eastern Nigeria Somalia South Sudan and Yemen Today this list is longer Each of these famines is the result of military actions and exclusionary authoritarian politics conducted without regard to the wellbeing or even the survival of people Violations of international law including blockading ports attacks on health facilities violence against humanitarian workers and obstruction of relief aid are carried out with renewed impunity Yet there is an array of legal offenses ranging from war crimes and crimes against humanity to genocide available to a prosecutor to hold individuals to account for the deliberate starvation of civilians However there has been a dearth of investigations and accountability for those violating international law The reasons for this neglect and the gaps between the black letter law and practice are explored in this timely volume It provides a comprehensive overview of the key themes and cases required to catalyze a new approach to understanding the law as it relates to starvation It also illustrates

the complications of historical and ongoing situations where starvation is used as a weapon of war and provides expert analysis on defining starvation early warning systems gender and mass starvation the use of sanctions journalistic reporting and memorialization of famine
