Trapped in Mediocrity Katherine Baird, 2012-08-09 Our students aren't learning we're falling behind other countries and many of our college graduates are even functionally illiterate. We offer our kids a weak and poorly thought out curriculum too many teachers do not make good use of classroom time and follow lesson plans that are superficial and repetitive almost all state governments define proficiency at low levels of competency and because kids with very uneven skills populate a classroom teachers spend considerable time on review before introducing new material. This dismal picture is tempered by the fact that the hard work and dedication of countless teachers and administrators means that many students get an excellent education. But it doesn't temper it much. As a group even our top students are not as strong as are those in a large majority of other rich countries. But it doesn't have to be this way. Katherine Baird an economist starts by clearly spelling out how our educational system is trapped in mediocrity. Yet she doesn't just expose where we are. She

identifies the steps to get out of the trap We need to 1 dramatically reform our education s governance structure 2 establish high expectations for all students 3 provide adequate support to meet those expectations and 4 introduce strong incentives for students to work hard in school so they do their part in meeting higher standards Clearly it isn t as simple as it sounds but Baird carefully examines each factor that has led to the current state in education and then spells out how a combination of policies will weaken the forces that keep our schools mediocre and instead make them ones worth copying Cracking the Texas EOC Jeff Mandell,2000 Contains strategies and techniques designed to help students score higher on the Texas EOC exam in United States history *Cracking the Virginia SOL* Dave Daniel,Princeton Review (Firm),2001-02-20 The Princeton Review realizes that acing the World History and Geography exams is very different from getting straight As in school The Princeton Review doesn t try to teach students everything there is to know about world history and geography only the techniques they ll need to score higher on the exam There s a big difference In *Cracking the Virginia SOL EOC World History Geography TPR* will teach test takers how to think like the test makers and Ace the exam by developing the study plan that is best for each individual student Eliminate incorrect answer choices by using Process of Elimination and other techniques Focus only on the material test takers will need to know to score higher Test knowledge with review questions for each world history and geography concept covered This book includes 2 full length simulated exams 1 each for the End of Course World History to 1000 A D Geography and World History from 1000 A D to the present Geography exams All of TPR s sample test questions are just like the ones test takers will see on the actual exams and TPR fully explains every solution Contents Include Understanding the Basics Structure and Strategies II The World History and Geography Review Review of World History Until AD 1000 Review of Geography Through AD 1000 Review of History From AD 1000 To The Present Review of Geography Since AD 1000 III The Princeton Review Practice Tests **STAAR Success Strategies EOC World History: STAAR Test Review for the State of Texas Assessments of Academic Readiness** Mometrix Media LLC,Staar Exam Secrets Test Prep,2014-03-31 STAAR Success Strategies EOC World History helps you ace the State of Texas Assessments of Academic Readiness without weeks and months of endless studying Our comprehensive STAAR Success Strategies EOC World History study guide is written by our exam experts who painstakingly researched every topic and concept that you need to know to ace your test Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you ve ever imagined STAAR Success Strategies EOC World History includes The 5 Secret Keys to STAAR Success Time is Your Greatest Enemy Guessing is Not Guesswork Practice Smarter Not Harder Prepare Don t Procrastinate Test Yourself A comprehensive General Strategy review including Make Predictions Answer the Question Benchmark Valid Information Avoid Fact Traps Milk the Question The Trap of Familiarity Eliminate Answers Tough Questions Brainstorm Read Carefully Face Value Prefixes Hedge Phrases Switchback Words New Information Time Management Contextual Clues Don t Panic Pace Yourself Answer Selection Check Your Work Beware of Directly Quoted Answers Slang Extreme Statements
