History Joe Regenbogen,2016-06-17 Since the days of the Ancient Greeks history has been perceived as the academic study of the past Unfortunately it has generally been taught as a litany of rigid boring facts intended to be accepted rather than questioned This has been reinforced for decades by weighty textbooks that overwhelm the reader with mind numbing details presented in a chronological sequence The end result is that students see little relevance of what they learn in history class to the real world and many simply struggle to stay awake Compared to other subjects taught at the secondary level history is frequently judged to be the most boring This is largely because it is viewed as an intellectually lifeless subject that presents few opportunities for active engagement Questioning History is a book built around 16 essential questions designed to challenge this common assumption Each question is broad open ended and subject to vigorous debate By examining the historical background behind each question and by analyzing the ways in which the question can be answered the reader will come away with a deeper understanding of the past and a new appreciation for history as a cognitively dynamic subject In addition by using each chapter as a platform for engaging discussions and Socratic seminars the reader will be able to refine the decision making skills necessary for effective citizenship in a democratic society Depending on the classroom or the setting in which it is being used Questioning History can either take the place of the more traditional textbook or at least be used as a supplement to make it come more alive The best way to learn and to appreciate a subject is through active engagement Questioning History provides a shot of adrenalin to the study of history California Dreaming Ronald A. Wells,2017-09-11 California matters both as a place and as an idea What famed historian Kevin Starr has called the California Dream is a vital part of American self understanding Just as America was meant to be a place of renewal even redemption for Europe so too California was intended as a place of renewal for America Therefore California place and idea provides a fertile ground for scholars to think deeply about what it means to articulate the promise of American life This book follows in the train of George Marsden s classic The Outrageous Idea of Christian Scholarship believing that people of faith have a contribution to make to scholarship and of Jay Green s more recent book Christian Historiography Five Rival Views believing that scholars of faith should engage in moral inquiry In this book eight authors inquire into the moral questions that emerge from studying California *Teaching Recent Global History* Diana B. Turk,Laura J. Dull,Robert Cohen,Michael R. Stoll,2014-03-05 Teaching Recent Global History explores innovative ways to teach world history beginning with the early 20th century The authors unique approach unites historians social studies teachers and educational curriculum specialists to offer historically rich pedagogically innovative and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history Highlighting the best scholarship for each major continent the text

explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students Each of the eight main chapters highlights a particularly important event or theme which is then complemented by a detailed discussion of a particular methodological approach Key features include An overarching narrative that helps readers address historical arguments Relevant primary documents or artifacts plus a discussion of a particular historical method well suited to teaching about them Lesson plans suitable for both middle and secondary level classrooms Document based questions and short bibliographies for further research on the topic This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students **World**
