Library of Congress Catalog: Motion Pictures and Filmstrips Library of Congress, 1968 *A Handbook for History Teachers* James A. Duthie, 2012-09-28 History is not a mere chronicle of facts but a dialogue between competing interpretations of the past it should be taught as such Teaching history in this way makes it both intellectually demanding and more interesting while at the same time helps students acquire the knowledge and skills necessary to become functioning citizens in a democracy The opening chapters provide the rationale for the study of history its epistemological basis and the logic of the discipline The bulk of the book deals with practical ways to help students acquire process and apply information In particular it addresses the specific thinking skills required by the discipline with many effective techniques for helping students to master them The implications of this approach for teacher evaluation of student work are also addressed
