World War II

The major causes of the World War II are yet to be determined, however, it remains to be the largest war in the history of the world that was fought on a global scale. The war began in 1939 and was fought until 1945. Involving more than 100 million members of the military from more than 30 nations, the war began to escalate gradually following its inception as a testing of powers through smaller conflicts which eventually blew into a full war. The main war occurred after the separation of the key militaries into two opposing armies. The members of various world militaries were thus exposed to the world superpowers at the time.
