Levine, 2010-05-11 In her award winning book *Harmful to Minors* Judith Levine radically upended our fixed ideas about childhood Now she tackles the other end of life in this poignant memoir of a daughter coming to terms with a difficult father who is sinking into dementia presenting an insightful exploration of the ways we think about disability aging and the self as it resides in the body and the world In prose that is unsentimental yet moving serious yet darkly funny complex in emotion and ideas yet spare in diction Levine reassembles her father s personal and professional history even as he is losing track of it She unpeels the layers of his complicated personality and uncovers information that surprises even her mother to whom her father has been married for more than sixty years As her father deteriorates the family consensus about who he was and is and how best to care for him constantly threatens to collapse Levine recounts the painful discussions mad outbursts and gingerly negotiations and dissects the shifting alliances among family friends and a changing guard of hired caretakers Spending more and more time with her father she confronts a relationship that has long felt bereft of love By caring for his needs she learns to care about and slowly to love him While Levine chronicles these developments she looks outside her family for the sources of their perceptions and expectations deftly weaving politics science history and philosophy into their personal story A memoir opens up to become a critique of our culture s attitudes toward the elderly A claustrophobic account of Alzheimer s is transformed into a complex lesson about love duty and community What creates a self and keeps it whole Levine insists that only the collaboration of others can safeguard her father s self against the riddling of his brain Embracing interdependence and vulnerability not autonomy and productivity as the seminal elements of our humanity Levine challenges herself and her readers to find new meaning even hope in one man s mortality and our own Will You
