After more than forty years Charles Manson continues to mystify and fascinate us One of the most notorious criminals in American history Manson and members of his mostly female commune killed nine people including pregnant actress Sharon Tate Now drawing on new information bestselling author Jeff Guinn tells the definitive story of how this ordinary delinquent became a murderer Manson helps us understand what obsessed him and most terrifying of all how he managed to persuade others to kill Guinn interviewed Manson's sister and cousin neither of whom has ever previously cooperated with an author Childhood friends cellmates and even some members of the Manson Family have provided new information about Manson's life Guinn has made discoveries about the night of the Tate murders answering unresolved questions such as why one person on the property was spared There are even photographs of Manson's childhood and youth that have never previously been seen outside private family albums Putting Manson in the context of his times the turbulent end of the Sixties Guinn shows how Manson represented the dark side of a generation He came to Los Angeles hoping to get a recording contract and the murders were directly related to his musical ambitions although he cloaked them in a bizarre race war theory He was in the words of one person who knew him just like many other rock star wannabes except that he was a killer

**Behind the Wall of Illusion** Sean MacLeod, 2023-04-23 The Beatles brought colour joy freedom and love to a grey post war world But the most successful group in popular music history also harboured hidden sometimes darker worlds and influences that are often downplayed by their biographers In their career the Fab Four were to cross paths with many spiritual movements religious groups esoteric philosophies and mystical teachings Inevitably their thinking was affected by the ideas they encountered These ideas in turn helped shape their music and given their vast popularity the public consciousness Behind the Wall of Illusion examines the spiritual inspirations that the Beatles brought to the changing cultural landscape of the 1960s From the

popularization of the new religion of rock n roll Beatlemania the new Cult of Dionysus and John Lennon s explosive statement that the Beatles were bigger than Jesus Sean MacLeod takes us on a tour of Indian ashrams questionable gurus and hallucinatory drugs He also studies the secreted clues in the Beatles album covers and films the growing rumours that Paul had been killed in a car crash and covertly replaced and the tragic assassination of John Lennon and the unknown perpetrators behind the crime This is an indispensable book for any lover of the Beatles **Turn on Your Mind** Jim

DeRogatis,2003-01-01 Book Turn On Your Mind Four Decades of Great Psychedelic Rock is a history and critical examination of rock s most inventive genre Whether or not psychedelic drugs played a role and as many musicians say they ve used them as not psychedelic rock has consistently charted brave new worlds that exist only in the space between the headphones The history books tell us the music s high point was the Haight Ashbury scene of 1967 but the genre didn t start in San Francisco and its evolution didn t end with the Summer of Love A line can be drawn from the hypnotic drones of the Velvet

Underground to the disorienting swirl of My Bloody Valentine from the artful experiments of the Beatles Revolver to the flowing otherworldly samples of rappers P M Dawn from the dementia of the 13th Floor Elevators to the grungy lunacy of the Flaming Lips and from the sounds and sights at Ken Kesey s 60s Acid Tests to those at present day raves Turn On Your Mind is an attempt to connect the dots from the very first groups who turned on tuned in and dropped out to such new millennial practitioners as Wilco the Elephant 6 bands Moby the Super Furry Animals and the so called stoner rock and ork pop scenes

Hollywood Eden Joel Selvin,2021-04-06 Hollywood Eden brings the lost humanity of the record business vividly back to life Selvin s style is blunt unpretentious and brisk he knows how to move things along entertainingly Songs about surfboards and convertibles had turned quaint but in this book their coolness is restored New York Times From surf music to hot rod records to the sunny pop of the Beach Boys Jan Dean the Byrds and the Mama s the Papa s Hollywood Eden captures the fresh blossom of a young generation who came together in the epic spring of the 1960s to invent the myth of the California Paradise Central to the story is a group of sun kissed teens from the University High School class of 1959 a class that included Jan Dean Nancy Sinatra and future members of the Beach Boys who came of age in Los Angeles at the dawn of a new golden era when anything seemed possible These were the people who invented the idea of modern California for the rest of the world But their own private struggles belied the paradise portrayed in their music What began as a light hearted frolic under sunny skies ended up crashing down to earth just a few short but action packed years later as one by one each met their destinies head on A rock n roll opera loaded with violence deceit intrigue low comedy and high drama Hollywood Eden tells the story of a group of young artists and musicians who bumped heads crashed cars and ultimately flew too close to the sun

year history of the Beach Boys music from essays on some of the group's best known music such as their hit single Good Vibrations to their mythical unfinished masterpiece Smile Throughout the book places special focus on the individual whose creative vision brought the whole enterprise to life Brian Wilson advancing our understanding of his gifts as a songwriter arranger and producer The book joins a growing body of literature on the popular music of the 1960s in general and on Brian Wilson and the Beach Boys in particular But Good Vibrations extends the investigation further and deeper than it has gone before not only offering new understanding and insights into individual songs and albums but also providing close examination of compositional techniques and reflections on the group's place in American popular culture **Phil Spector**
