The Empathy Hat:

The Empathy Hat Jennifer Cole, Janet Keefe, 2014-12-08 It's a presidential election year and something very peculiar is going on. With the help of a supernatural hat, people start seeing each other's views in a deeper way. Starting out in Jamaica at a lively hat maker's shop, a migrant worker buys a special hat to protect him from the hot sun while he works in a New England apple orchard. Once he arrives in the US, his new hat takes on a personality all its own. This hat finds a way to whimsically make its rounds to a diverse group of characters. Find out what happens when the hat is placed on the head of the newly elected president. When all the thoughts and feelings of each person who has worn the hat become known and felt by the new leader of the USA. Somewhat prophetic considering the original copyright is from 2007 **Stakeholder**

Whispering Bill Shander, 2025-04-09 Learn to uncover what your managers, clients, customers, and other stakeholders need before doing what they ask. People don't know what they need. The wants we communicate to others are shaped by our subconscious and the familiar and limited by what we think is possible. But they don't always reflect our actual needs. In **Stakeholder Whispering: Uncover What People Need Before Doing What They Ask**, author Bill Shander demonstrates how to get from your stakeholders' order what they're asking for to what they really need. You'll learn how to uncover the needs and desires of your clients, colleagues, bosses, customers, and other stakeholders based on what they ask for and how they ask for it and how to deliver products and services that meet those needs. Inside the book: Help your stakeholders accomplish their goals and make the best decisions possible by helping them see what they really need. Shift from executing on tactics driven by others' commands to strategic action driven by underlying needs. Transform your organization from one filled with order takers into one where people work collaboratively to meet goal-oriented requirements. Perfect for managers, executives, and other business leaders. **Stakeholder Whispering** will also earn a place on the bookshelves of entrepreneurs, founders, designers, product and project managers, UX experts, data and business analysts, and anyone else hoping to better meet the expectations of their coworkers, managers, clients, and customers. **Adaptive Instructional Systems** Robert A.
