The Face Of Death:

Faces of Your Soul Elise Dirlam Ching, Kaleo Ching, 2014-01-14 In *Faces of Your Soul* Elise Dirlam Ching and Kaleo Ching combine art and archetypes meditation and acupuncture guided imagery journaling and many different creative processes in a collage of healing knowledge and wisdom The authors start by stressing the balance of complementary opposites left brain right brain challenge comfort practicality the sacred as crucial to beginning the journey Then through guided imagery they lead readers through subconscious realms to connect with archetypal sources of inner wisdom This process frees the creative and healing spirit connecting explorers with the body's instinctive intelligence which expresses itself through the creation of art Central to this process is a detailed description of maskmaking including how to work with a partner to mold each other's gauze mask balanced with self explorations of the inner experience of this event Poetry personal stories photographs and a gallery of Kaleo Ching's evocative totemic masks expand the reader's experience of this richly resonant journey to self

Faces of Death Monty, 2012-03-16 This book is based on a killer who is disguising themselves to create havoc on Halloween night due to an incident that took place a couple of years back By introducing the faces of death masks to create the following gimmicks of the horror movies to indicate the artificial truth behind the killer's schemes Which is the mystery that sets the stage of who is the one that is doing all of the killing That involves around a group of students that is attending college for the first time

The Face of Africa Stan Chu Ilo, 2012-12-01 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which

is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development The Philosophy of Person-Centred Healthcare Derek

Mitchell, Michael Loughlin, 2022-11-22 This book sets out a philosophical basis for person centred healthcare primarily using work by Heidegger and Gadamer but drawing on ideas derived from Aristotle and process philosophy in order to show how practice can be improved and how examples of person centred practice can be transferred between individuals and institutions involved in the commissioning and provision of healthcare By providing an underlying architectonic this work will help to enable practitioners to understand the benefits of person centred healthcare practice in promoting autonomy in those who are suffering from chronic and other illnesses The text takes a phenomenological approach to healthcare because it offers a rich and subtle way of thinking about how we know what we know and this applies to our knowledge and understanding of how healthcare works just as much as it does to all other kinds of knowledge For those in clinical practice this book provides a guide to the thinking behind person centred healthcare **Encyclopedia of Social Theory** Austin
