

WORLD CIV II: Midterm Study Guide

Spring 2025

The Midterm Exam will consist of twenty-five multiple choice questions and two Essay-ID questions. The multiple-choice questions are worth 2 points each and make up 50% of your grade on the midterm exam. They are designed to test your historical literacy, aka what you have been learning in class. Essay ID questions use a three-paragraph format (we will go over this in class the week of the exam), but you should follow the following format: Each of your answers should have three paragraphs. In the first paragraph, you should explain who/what the first term is, when this item was important (give dates), and where it took place. In the second paragraph, you should explain who/what the second term is, when this item was important, and where it took place. In the third paragraph, you should discuss how the two terms are related and why they are significant to World history. Each essay ID is worth 25 points.

Clark, 2007 Examinations of the culture artistic material musical of English monasteries in the six centuries between the Conquest and the Dissolution The cultural remains of England s abbeys and priories have always attracted scholarly attention but too often they have been studied in isolation appreciated only for their artistic codicological or intellectual features and not for the insights they offer into the patterns of life and thought the underlying norms values and mentalities of the communities of men and women which made them Indeed the distinguished monastic historian David Knowles doubted there would ever be sufficient evidence to recover the mentality of the ordinary cloister monk These twelve essays challenge this view They exploit newly catalogued and newly discovered evidence manuscript books wall paintings and even the traces of original monastic music to recover the cultural dynamics of a cross section of male and female communities It is often claimed that over time the cultural traditions of the monasteries were suffocated by secular trends but here it is suggested that many houses remained a major cultural force even on the verge of the Reformation James G Clark is Professor of History at the University of Exeter Contributors DAVID BELL ROGER BOWERS JAMES CLARK BARRIE

Dong,2025-09-03 Instancology is a bold philosophical breakthrough that redefines the foundations of metaphysics epistemology and ontology through a unified system centered on the concept of the Instance Departing from centuries of fragmented thinking Wade Y Dong introduces a structural vision of reality that integrates Being Thought and Language into one coherent framework This is not a revision of past philosophies it is a new beginning At its core is the realization that all things exist not as isolated objects or mere processes but as holistic instances each carrying a microcosmic structure that reflects the entire universe Unlike conventional metaphysical systems that remain trapped in either subjectivism or objectivism Instancology restores balance by mapping the relationships between the Relative and the Absolute into a 2x2 foundational structure From this a mathematically elegant 6 6 6 6 6 expansion arises guiding the reader through layers of cognition knowledge existence and meaning This structural metaphysics reveals why reality is knowable how truth emerges and what lies beyond the limits of logic language and even death Drawing from both Western and Eastern traditions yet ultimately transcending them Instancology offers powerful principles such as the Rebirth Principle Uniqueness Principle and Reverse Principle It confronts G del s incompleteness quantum indeterminacy and the paradoxes of existence not by dissolving them but by structurally situating them within a larger ontological field Here abstract thinking regains its rightful place not as a tool of escape but as the gateway to the Absolute This is a book for those seeking not just another theory but a complete transformation of how we understand reality itself Instancology is as challenging as it is illuminating laying down the groundwork for a new era of thought one that dares to unify metaphysics science and human destiny under a single absolute framework **Study Guide for Problems in American History** Lena A.
