It travels through geology, sacred spaces and technical knowledge in the first section; environmental history and labor in the second section; silver flows, the heterogeneous world of mining producers and their agency in the third; and some of the local, regional and global impacts of Potos mining in the fourth section. The main focus is on the establishment of a complex infrastructure at the site, its major changes over time and the new human and environmental landscape that emerged for the production of one of the world's major commodities, silver.
