weakened the study of literature in both the schools and the colleges 3 problems in producing fully literate high school graduates largely as a result of faulty methods of teaching reading and doubtful philosophical principles which have seriously weakened the study of literature in the schools and 4 the threat of the electronic age to the preservation of the printed page upon which literature depends for its very survival All of these forces have served to trivialize literature and are on their way to destroying it as a major cultural force in modern America This book also attempts to redeem literature and to help restore literature as a major discipline superior in importance to other disciplines by offering a theory of literature which will demonstrate that literature is in fact as Sir Philip Sidney insisted the highest form of earthly learning
