Research Ethics and Integrity is an essential resource for both online and face to face teaching **Map Librarianship** Susan Elizabeth Ward Aber,Jeremy Aber,2016-11-04 Map Librarianship identifies basic geoliteracy concepts and enhances reference and instruction skills by providing details on finding downloading delivering and assessing maps remotely sensed imagery and other geospatial resources and services primarily from trusted government sources By offering descriptions of traditional maps geographic information systems GIS remote sensing and other geospatial technologies the book provides a timely and practical guide for the map and geospatial librarian to blend confidence in traditional library skill sets Includes rarely discussed concepts of citing and referencing maps and geospatial data fair use and copyright Creates an awareness and appreciation of existing print map collections while building digital stewardship with surrogate map and aerial imagery collections Provides an introduction to the theory and applications of GIS remote sensing participatory neogeography and neocartography practices and other geospatial technologies Includes a list of geospatial resources with descriptions and illustrations of commonly used map types and formats online geospatial data sources and an introduction to the most commonly used geospatial software packages available on both desktop and mobile platforms **Human Factors in**

Lighting, Third Edition Peter Robert Boyce,2014-04-07 The availability of electric lighting has changed the lives of people the world over yet as a major user of electricity it has come under increasing scrutiny in recent years This scrutiny has focused largely on the environmental consequences with little consideration of the benefits of lighting Human Factors in Lighting Third Edition restores some balance to the discussion by examining the ways in which people interact with lighting These interactions influence the ability to perform visual tasks the perception of people objects and spaces human comfort and behavior as well as human health and safety It is only by understanding how to use light to achieve these ends that lighting can be provided effectively and efficiently to the benefit of all See What s New in the Third Edition New chapters on the non image forming system lighting for pedestrians light pollution and lighting and electricity use Revision of all other chapters to update them to take into account the advances that have been made in our understanding of the effects of light on people over the last decade Integration of the combined effects of light via the visual and non image forming systems on performance and perception The book covers both the visual and the non visual effects of light on people as well as the benefits of lighting and the costs it imposes on the environment It details the consequences of exposure to lighting or lighting

technology and the role of exposure to light on such basic functions of the body as circadian rhythms The author combines information from many different sources and integrates them into a coherent overview of lighting practice that can be used to develop better lighting solutions at a lower environmental cost
