Mihocko,2011 The story of combat service support during Operation Iraqi Freedom I is one that could have been easily overlooked by history except what would have been lost is more than a simple tale of Marines performing exceptionally during a time of war Lost would have been a recollection of historical firsts an account of extraordinary vision and insight from some of the Marine Corps top leaders and a chronicle of miracles performed in the heat of battle by individuals who rarely receive the glory and praise of their front line combat counterparts This monograph tells the story of the Marines and sailors from 1st Force Service Support Group and 2nd Force Service Support Group whose combined efforts helped pave the way for the Marine Corps success during operation Iraqi Freedom I The author Lieutenant Colonel Melissa D Mihocko is a supply officer who has served as a field historian with the History Division since 2002 Before this service Lt Col Mihocko was assigned to 4th Civil Affairs Group and deployed twice to the

Balkans and once during a MEU's Mediterranean deployment. In 2003, just months after joining the detachment, she mobilized and deployed as a field historian in support of Operation Iraqi Freedom. Between February and May of that year, LtCol Mihocko was assigned to 1st Force Service Support Group and traveled to Kuwait and Iraq to collect more than 130 oral history interviews along with documents, artifacts, and photos. More important, however, she gained a firsthand look at the Marines Corps combat service support in action. Following her deployment, she remained on active duty and mobilized again to work on this monograph.

Tells the story of the Marines and sailors of the 1st Force Service Support Group, the 2d Force Service Support Group, Marine Wing Support Group 37, and the 3d Naval Construction Regiment whose combined efforts gave the I Marine Expeditionary Force the ability to eject Iraqi forces from Kuwait during Operation Desert Storm.

Complete Idiot's Guide to Careers in the U.S. Military Bill Harris, 2002. The lagging economy getting you down. No jobs out there, no job prospects. Join the Army. Or the Navy. Or the Marines. Or the Air Force. Good pay, great benefits, an excellent career opportunity. This book will teach you how to tweak the system to help you enjoy the fullest benefits the U.S. Military has to offer. What little competition there is for this title is several years old and virtually obsolete. Uncle Sam wants you more than ever. Since the tragic events of 9/11, all branches of the U.S. Military have seen a rise in enlistments. This is due to several factors: 1. A renewed sense of patriotism and 2. A cooling off of the economy and subsequent recession. Suddenly, job opportunities for recent high school and college grads are drying up quickly. That's why a career in the Army, Navy, Air Force, Marines, or even the Coast Guard may be an excellent option. Author Bill Harris, working closely with recruiters from branches of the military, will detail the intricacies of getting the most out of a military career and discuss which branch of the military might be best for you. He'll explore age limits, guaranteed training, bonuses, and benefits, and even the rigors of basic training. He'll also cover the many perks offered by a career in the military and how best to obtain them.

US Battle Tanks 1946-2025 Steven J. Zaloga, 2024-11-07. A comprehensive and detailed illustrated examination of the development and combat performance of US battle tanks from the end of World War II through to the present day. In this, the second of two highly illustrated volumes, telling the full history of the design, development, and operational use of US Army and US Marine Corps battle tanks, Steven J. Zaloga takes the story from the end of World War II through the US-Soviet rivalry of the Cold War period right up to the latest developments in American armored technology. **US Battle Tanks 1946-2025** draws and expands on material published in Osprey's *New Vanguard* and *Duel* series to explain how the US Army attempted to come to grips with the challenges of the nuclear battlefield and examines the introduction of new tank designs such as the famous Patton tank series, as well as short-lived attempts to develop more radical tanks such as the T95. It covers the overly ambitious and failed MBT-70 tank program and the more austere M1 Abrams that followed, a tank

that proved to be the best US tank design of the post World War II period and one that is still in service today Published in association with the AUSA Book Program offering quality books about US Army heritage military theory and policy and security in the modern world **Armor** ,1997 *TANKER TECHNIQUES MAGAZINE 08* , **AK130021 - MBT -**
