

The background of the cover is a high-magnification, false-color micrograph of a semiconductor die. The die is rectangular and filled with a complex, repeating pattern of circuitry. Different functional blocks are highlighted in various colors: large green rectangular blocks, smaller red blocks, and purple/pinkish regions. A network of fine, dark lines represents the interconnects between these blocks. The overall appearance is that of a highly integrated, modern microprocessor or system-on-chip.
