Heydari, Kin Keung Lai, Zhou Xiaohu, 2021-10-27 Public Private Partnerships PPP or 3Ps allow the public sector to seek alternative funding and expertise from the private sector during procurement processes Such partnerships if executed with due diligence often benefit the public immensely Unfortunately Public Private Partnerships can be vulnerable to corruption This book looks at what measures we can put in place to check corruption during procurement and what good governance strategies the public sector can adopt to improve the performance of 3Ps The book applies mathematical models to analyze 3Ps It uses game theory to study the interaction and dynamics between the stakeholders and suggests strategies to reduce corruption risks in various 3Ps stages The authors explain through game theory based simulation how governments can adopt a evaluating process at the start of each procurement to weed out undesirable private partners and why the government should take a more proactive approach Using a methodological framework rooted in mathematical models to illustrate how we can combat institutional corruption this book is a helpful reference for anyone interested in public policymaking and public infrastructure management Macroeconomic Dimensions of Public Finance Mario Blejer, Teresa

Ter-Minassian, 2002-09-11 There is no magic formula for balancing fiscal policy and economic performance As a scholar and policy advisor Vito Tanzi has made a major contribution to identifying links between public finance and macro and microeconomic consequences His findings bear relevance in both developing and industrialized economies The essays in this volume and its companion Fiscal Policy and Economic Reform highlight many of these interconnected issues for instance the interaction between budgetary policy and economic aggregates such as employment inflation and growth the implication of economic linkages for designing fiscal policies expenditure policies and alternative deficit financing strategies the trade offs between macro and microeconomic objectives The list of contributors includes Max Corden John Makin Ronald McKinnon and Richard Musgrave Abandoned Buildings in Contemporary Cities: Smart Conditions for Actions Isabella M.

Lami, 2020-01-08 Is it possible to energise the reuse of urban abandoned spaces with low financial capital investment Addressing this question requires a normative and cultural change where the rules are less focused on the material processes of producing space and more aimed at fostering the construction of relationships The reality of several European cities shows how traditional forms of stimulating urban renewal with respect to the financing of operations how to design and build and urban planning legislation no longer work This book examines an alternative culture of design and regulation drawing on the richness of the various approaches to the subject to present an integrated study of the phenomenon of reuse across its economic architectural and urban dimensions From this theoretical base it empirically analyses six Italian case

studies in terms of the broadness of geography and in their governance models and of the important role of the unity of cultural destination for their reuse proposal The book is intended for all those involved in the cultural challenge of reusing urban abandoned spaces including public administrators entrepreneurs architects planners and academics
