Our shared goal is to ensure excellent en route care that is standard across all evacuation and emergency medical pre hospital units. It is our vision that all of these enhancements and improvements will advance en route care across the services and the Department of Defense. The CCFP Program Office facilitates appropriate training and medical education to the CCFP providers. The CCFP program of instruction ensures the appropriate skills and knowledge required for CCFPs to apply these medical guidelines during aeromedical evacuation. Unit medical trainers and medical directors should evaluate CCFPs ability to follow and execute the medical instructions herein. These medical guidelines are intended to guide Critical Care Flight Paramedics, CCFP and prehospital professionals in the response and management of emergencies and the care and treatment of patients in both garrison and theater of war environments. Unit medical providers are not expected to employ these guidelines blindly. Unit medical providers are expected to manipulate and adjust these guidelines to their unit's mission and medical air crew training experience. Medical directors or designated supervising physicians should endorse these guidelines as a baseline, appropriately adjust components as needed, and responsibly manage individual unit medical missions within the scope of practice of their Critical Care Flight Paramedics.
