The authors contend that the current understanding of lead markets does not sufficiently explain the business practices that are born out of the intensified globalization of innovation. Lead markets are considered crucial for the global diffusion of new products and this book investigates whether sustainable lead markets can also emerge in developing economies and if so under which conditions. The authors question the conventional wisdom and propose updates and extensions to the lead market theory to better reflect the changing ground realities on ground. **Essentials of Strategic Management 4e** John Gamble, Arthur Thompson, Margaret Peteraf, 2014-09-16 *Essentials of Strategic Management 4e*
