The Canadian National Record for Swine ,1950 *Made Men* Antonio Nicaso,Marcel Danesi,2013-07-05 The novel The Godfather 1969 and the movie of the same name 1972 entrenched the myth of the Mafiosi as valiant knights men of honor and defenders of the traditional concept of family As a result of this movie and other popular portrayals the image of mobsters as men of honor and tradition has become iconic throughout America Yet the truth of the matter belies this more noble image The Mafia is a ruthless organization Their concept of family is a twisted one But viewed through the lens of popular culture it is often difficult to separate the fiction from the reality Made Men demystifies this image by dismantling the code of honor that Mafiosi live by including its attendant symbols rituals and the lifestyle that it demands Since the end of World War II the Mafia in Italy and America has undergone major changes which are charted by the authors through the present day Nicaso and Danesi also consider all kinds of related organizations not only the Italian ones including the Yakuza the Triads and the Russian Mafia The authors look at organized criminal culture in general attempting to explain why its symbols rituals and practices continue to draw people in both as literal members or as consumers of the pop culture that glorifies them This story traces and decodes the origins history and success of the mafia in the U S bringing a better and more accurate understanding of this ultimately brutal violent and corrupting family business It is a story that has rarely been told in this way but which is believed nonetheless important to tell *Below-the-line Talent* ,2002 **Billboard** ,1945-01-20

Westermann at War David

McCarthy, 2004 This book examines the antiwar work of one American artist in relation to the cultural history of the Cold War. The study provides new and detailed information on this important artist while also contributing to the study of masculinity, dissent, art, violence, and war in the last half of the twentieth century. The study clearly reveals that artists' protests against American foreign policy began well before the official U.S. entry in the Vietnam War and that not all combat veterans looked back fondly on their experience of the Good War. Finally, in drawing attention to the challenges of being a man in a hostile world, Westermann's art enters into a much broader consideration of gender long before this issue became topical in contemporary art. Director of the American Studies Program at Rhodes College in Tennessee.
