Reading and writing have always conjoined care for the self and care for others and it is upon that reciprocity that the communities of sense of tomorrow can flourish in a spirit of reparative humanism Derek Schilling Professor of French Director of the Centre Louis Marin Department of Modern Languages and Literatures Johns Hopkins University USA Alexandre Gefen's wide ranging thought provoking study takes stock of a paradigm shift in contemporary French literature away from a model of autonomy and intransitivity to ways of writing and reading that seek to repair restore reassure and rebuild From the varied forms of expressivity found in self narratives to the empathetic projections of fiction Repair the World maps out an expanding literary territory that seeks not critical negativity but rather the power to intervene for good in individual and collective life While reserving judgment on the actual extent of literature's effects Gefen demonstrates that contemporary projects and discourses undeniably center the therapeutic and remediative uses of literature With its nuanced readings and keen insights Repair the World has been rightly influential in France its powerful diagnosis of contemporary sensibilities resonates far beyond revealing both the promises and predicaments of literature in the twenty first century Alison James Professor of French and Chair of the Department of Romance Languages and Literatures at the University of Chicago USA What would it mean to ask Sartre's post war question What is literature in the 21st century In this wonderful essay Alexandre Gefen argues convincingly that the main purpose of literature today is to repair a broken world and memorialise forgotten lives Taking examples from predominantly contemporary French literature he proposes that literature as therapy has replaced religions of salvation a politics of emancipation and formal experimentation Today literature's mission is to heal traumatised individuals and communities resurrect the lives of the vulnerable and commemorate their deeds in the face of the forces of oblivion For Gefen Patrick Modiano's Dora Bruder 1997 is the contemporary literary archetype of these lost identities to be rehabilitated and reinhabited Gefen describes this new role for literature without taking sides the writing is lucid compelling and non partisan In an age of victimhood testimony empathy self expression and identity Gefen's reparative paradigm is as persuasive as Sartre's political version in the age of ideology Max Silverman Professor of Modern French Studies University of Leeds UK *Bulletin Moskovskoe obshchestvo ispytatelei prirody*, 1890

La Philosophie naturelle de Galilée Maurice

Clavelin, 2014-04-01 Tout le monde s'accorde pour attribuer Galilée la paternité de la science moderne Mais aucun ouvrage ce jour n'a mieux situé la place de la révolution galiléenne dans l'histoire de la pensée que le livre de Maurice Clavelin professeur de philosophie à l'université de Paris IV Sorbonne paru en 1968 et aujourd'hui redit L'ambition de l'auteur promouvoir une approche globale de la philosophie du Pisan tout la fois théoricien du mouvement et astronome n'a rien perdu de son actualité Travaillant sur une approche purement sociologique et des interprétations atténuant la rupture que représente l'œuvre de Galilée Maurice Clavelin cherche plutôt à cerner les problèmes les concepts et la méthode qui ont permis Galilée de mettre la mécanique classique en lieu et place de l'ancienne physique aristotélicienne **Géographies de Maylis de Kerangal** Delphine

Salamis of Cyprus Sabine Rogge, Christina Ioannou, Theodoros Mavrojanis, 2019 In May 2015 an international conference organised by the University of Cyprus and the Cypriot Department of Antiquities was held in Nicosia a conference which could well be called the largest ever symposium on ancient Salamis During the three day event some 60 scholars from many countries presented their current research on this important and spectacular archaeological site on the east coast of the island of Cyprus Two generations of scholars met in Nicosia during the conference an older one whose relationship with ancient Salamis can be characterized as very direct since many representatives of that generation had actively participated in the extremely productive excavations at that spot until these activities came to an abrupt end in the summer of 1974 due to the Turkish invasion and a younger generation which is of course lacking this very direct contact The conference successfully connected the older with the younger generation and thus contributed to maintaining and renewing the interest in ancient Salamis This richly illustrated book compiles most of the lectures presented during the conference It might be regarded as a tribute to Salamis an outstanding ancient city which existed for more than one and a half millennia eventually under the name of Constantia
