How to write magazine articles and how to take photos that will help you sell those words. *The Complete Article Writer* shows you how to come up with the right idea for the right market, time and time again. Then it guides you into twisting your idea so it appeals to the core readership and the most important reader of all: the editor. With detailed advice about beginnings, middles, and endings, the various middle structures can help you exploit your ideas even further, along with other pieces of page furniture including boxouts, sidebars, and photos. *The Complete Article Writer* will show you how to offer an editor the complete package. And to ensure you approach editors professionally, it gives advice on how to pitch, selling an idea to an editor before you write the piece, and how to negotiate the minefield of publishing rights.
