The Ghost Map:

The Ghost Map Steven Johnson, 2006-10-19 A National Bestseller a New York Times Notable Book and an Entertainment Weekly Best Book of the Year from the author of *Extra Life* By turns a medical thriller detective story and paean to city life Johnson's account of the outbreak and its modern implications is a true page turner The Washington Post Thought provoking Entertainment Weekly It's the summer of 1854 and London is just emerging as one of the first modern cities in the world But lacking the infrastructure garbage removal clean water sewers necessary to support its rapidly expanding population the city has become the perfect breeding ground for a terrifying disease no one knows how to cure As the cholera outbreak takes hold a physician and a local curate are spurred to action and ultimately solve the most pressing medical riddle of their time In a triumph of multidisciplinary thinking Johnson illuminates the intertwined histories of the spread of disease the rise of cities and the nature of scientific inquiry offering both a riveting history and a powerful explanation of how it has shaped the world we live in

The Ghost Map Steven Johnson, 2006 It is the summer of 1854 Cholera has seized London with unprecedented intensity A metropolis of more than 2 million people London is just emerging as one of the first modern cities in the world But lacking the infrastructure necessary to support its dense population garbage removal clean water sewers the city has become the perfect breeding ground for a terrifying disease that no one knows how to cure As their neighbors begin dying two men are spurred to action the Reverend Henry Whitehead whose faith in a benevolent God is shaken by the seemingly random nature of the victims and Dr John Snow whose ideas about contagion have been dismissed by the scientific community but who is convinced that he knows how the disease is being transmitted The Ghost Map chronicles the outbreak's spread and the desperate efforts to put an end to the epidemic and solve the most pressing medical riddle of the age BOOK JACKET

The Ghost Map Steven Johnson, 2008 A thrilling historical account of the worst cholera outbreak in Victorian London and a brilliant exploration of how Dr John Snow's solution revolutionized the way we think about disease cities science and the modern world The ghost map is an endlessly compelling and utterly gripping account of that London summer of 1854 from the microbial level to the macrouban theory level including most important the human level [The Ghost Map](#) Steven Johnson, 2008-01-31 In Ghost Map Steven Johnson tells the story of the terrifying cholera epidemic that engulfed London in 1854 and the two unlikely heroes anaesthetist Doctor John Snow and affable clergyman Reverend Henry Whitehead who defeated the disease through a combination of local knowledge scientific research and map making In telling their extraordinary story Johnson also explores a whole world of ideas and connections from urban terror to microbes ecosystems to the Great Stink cultural phenomena to street life Re-creating a London full of dirt dust heaps slaughterhouses and scavengers Ghost Map is about how huge populations live together how cities can kill and how they can save us **The CX Trinity** Alan J. Porter, 2021-02-15 Welcome to the CX Trinity a look at how we talk to customers the content we provide to them and the contexts in which they consume it CX is an abbreviation for customer experience and is often used as a hashtag

in social media Trinity comes from the belief that any good customer experience is driven by a combination of three critical elements Meeting the customer s needs Delivering the right content to help the customer Understanding the context of where when and how the customer interacts with you These observations are pulled together from 52 essays that originally appeared as blog posts on Alan s Content Pool blog LinkedIn and the CMS Wire website They reflect Alan s years of experience writing designing and managing content for both large and small organizations These essays have been collected updated and edited for this volume

Deep Maps and Spatial Narratives David J. Bodenhamer,John Corrigan,Trevor M. Harris,2015-02-04 Deep maps are finely detailed multimedia depictions of a place and the people buildings objects flora and fauna that exist within it and which are inseparable from the activities of everyday life These depictions may encompass the beliefs desires hopes and fears of residents and help show what ties one place to another A deep map is a way to engage evidence within its spatio temporal context and to provide a platform for a spatially embedded argument The essays in this book investigate deep mapping and the spatial narratives that stem from it The authors come from a variety of disciplines history religious studies geography and geographic information science and computer science Each applies the concepts of space time and place to problems central to an understanding of society and culture employing deep maps to reveal the confluence of actions and evidence and to trace paths of intellectual exploration by making use of a new creative space that is visual structurally open multi media and multi layered

Rethinking Map Literacy Ming Xie,Steven Reader,H. L. Vacher,2021-03-29 This book provides two conceptual frameworks for further investigation of map literacy and fills in a gap in map literacy studies addressing the distinction between reference maps and thematic maps and the varying uses of quantitative map literacy QML within and between the two The text offers two conceptual frameworks and uses specific map examples to explore this variability in map reading skills and knowledge with the goal of informing educational pedagogy and practices within geography and related disciplines The book will appeal to cartographers and geographers as a new perspective on a tool of communication they have long employed in their disciplines and will also appeal to those involved in the educational pedagogy of information and data literacy as a way to conceptualize the development of curricula and teaching materials in the increasingly important arena of the interplay between quantitative data and map based graphics The first framework discussed is based on a three set Venn model and addresses the content and relationships of three literacies map literacy quantitative literacy and background information As part of this framework the field of QML is introduced conceptualized and defined as the knowledge concepts skills and facts required to accurately read use interpret and understand the quantitative information embedded in geographic backgrounds The second framework is of a compositional triangle based on 1 the ratio of reference to thematic map purpose and 2 the level of generalization and or distortion within maps In combination these two parameters allow for any type of map to be located within the triangle as a prelude to considering the type and level of quantitative literacy that comes into play during map reading Based on the two frameworks mentioned above the pedagogical tool of word problems is applied to map literacy in an innovative way to explore the variability of map reading skills and knowledge based on specific map examples *The Environment and the People in American Cities, 1600s-1900s* Dorceta E. Taylor,2009-11-23 This wide ranging study of urban environmental history draws our attention to environmental challenges faced by American cities over the past four centuries showing how understandings of race class and gender shape discourse on the environment
