The Amorites Nathan Wasserman,Yigal Bloch,2023-07-24 This study of the political history of Mesopotamia today s Iraq and Syria in the Old Babylonian period ca 2000 1600 BCE is the first comprehensive historical synthesis of this kind published in English after many decades Based on numerous written sources in Sumerian and Akkadian royal inscriptions letters law collections economic records etc and on up to date research it presents the region s political history in a meticulous geographic and chronological manner This allows the interested academic and non academic reader an in depth view into the scene of ancient Mesopotamia ruled by competing dynasties of West Semitic Amorite origin with a complex web of political and tribal connections between them Ancient Western Asia Beyond the Paradigm of Collapse and Regeneration (1200-900 BCE) Maria Grazia Masetti-Rouault,Ilaria Calini,Robert Hawley,Lorenzo d'Alfonso,2024-05-07 New results and interpretations challenging the notion of a uniform macroregional collapse throughout the Late Bronze Age Eastern Mediterranean Ancient Western Asia Beyond the Paradigm of Collapse and Regeneration 1200 900 BCE presents select essays originating in a two year research collaboration between New York University and Paris Sciences et Lettres The contributions here offer new results and interpretations of the processes and outcomes of the transition from the Late Bronze Age to the Iron Age in three broad regions Anatolia northern Mesopotamia and the Levant Together these challenge the notion of a uniform macroregional collapse throughout the Eastern Mediterranean followed by the regeneration of political powers Current research on newly discovered or reinterpreted textual and material evidence from Western Asia instead

suggests that this transition was characterized by a diversity of local responses emerging from diverse environmental settings and culture complexes as evident in the case studies collected here in history archaeology and art history The editors avoid particularism by adopting a regional organization with the aim of identifying and tracing similar processes and outcomes emerging locally across the three regions Ultimately this volume reimagines the Late Bronze Iron Age transition as the emergence of a set of recursive processes and outcomes nested firmly in the local cultural interactions of western Asia before the beginning of the new unifying era of Assyrian imperialism
