

Informative Toastmasters Speech

Fourth grade students will be participating in Toastmasters speeches on January 25-28. It will be an informative speech, 2-5 minutes in length. Your child needs to choose possible topics that are related to ESTEEM (Ethics, Science, Technology, Engineering, Entrepreneurship, Mathematics) by Friday, December 4th. They will be working on the speeches in class and finish any remaining work at home. As you prepare and practice, keep the following in mind:

1. An informative speech communicates certain information and facts about a particular subject. An informative speech conveys information, explains what something means, or tells how something works. The audience will be 3rd and 4th graders so the speech needs to be at their level. Each student will choose a topic that relates to our school focus of ESTEEM (see list of examples written by the student).
2. The speech must be 2-5 minutes in length. If it is shorter, you should review the content to see where you might add more facts. If there is nothing more to add, you should consider changing topics to something more suitable for an informative speech. Keep in mind that when you present your speech in front of the class, you may be nervous and speak more rapidly than when you practiced at home. This may result in your speech being delivered in less than 2 minutes in class unless you prepare a longer speech.
3. You should practice your speech as often as necessary to try your best to memorize it, rather than read it. Index cards should be used. You may use these cards when presenting your speech, but the speech should not be read. Many students choose to put as few words as possible on their cards so they are not dependent on the cards when delivering their speech. You may choose to write out the introduction and conclusion, but it is recommended to use only buzz words or short phrases to remind you of what you want to say in the body of your speech. Parents can help by having you practice the speech and can encourage you to look at them rather than the cards. With practice you will become more comfortable and less reliant on the index cards.
4. The introduction is a very important part of the speech and should accomplish two goals: to grab the attention of the audience and briefly outline what the body of the speech will be telling them. The conclusion is also a very important part of the speech. It should summarize what the speaker has said. Speeches with weak
