Competitive exams test the conceptual knowledge of students along with time management skills. However, several students generally do not get the expected rank score despite knowing all the concepts. The author of this book strongly believes that with proper and timely strategic guidance on time management, every student can achieve well in Competitive Exams. This book has the strength to cover the entire syllabus in 10 days. For fast track coverage of the entire course, online coaching students can contact the author at monicabhandari_books@gmail.com. This book encompasses 10 chapters. Each chapter starts with a quick review of the important concepts followed by shortcuts, tips, tricks. The strategic manner in which topics are interlinked in this book will help in building a strong conceptual clarity among the students. For illustration, questions from previous years' papers of JEE and NEET with accurate shortest possible solutions are provided along with each topic. The questions are based on the author's interactions with students who had appeared in the aforementioned competitive exams in the past years. Solving the carefully handpicked questions given in this book, students will find themselves at ease with the Chemistry paper in any Competitive as well as Board examination.
