AN OZIAN
(interrupting)
Wait, how were you even there?

GLINDA
I wasn't. But don't you want to
hear about - ?

ANOTHER OZIAN
No-one gives a shit about Bog.

GLINDA
You don't want to hear where the
Tin Man came from?

OZIAN
No. His story doesn't go anywhere.

ANOTHER OZIAN

GLINDA

To The Musical Script:

The Music and Scripts of "In Dahomey" Thomas L. Riis, 1996-01-01 With over eleven hundred performances in the United States and England between 1902 and 1905 In Dahomey became a landmark of American musical theater Created and performed entirely by African Americans it showcased the talent of conservatory trained composer Will Marion Cook and the popular vaudevillians Bert Williams and George Walker This edition presents the musical and textual materials of In Dahomey in a comprehensive piano vocal score with many musical numbers that were added or substituted in various early productions This complete array of songs makes this the first publication of its type *Acting Liturgically* Nicholas Wolterstorff, 2018-03-03 Participation in religious liturgies and rituals is a pervasive and remarkably complex form of human activity This book opens with a discussion of the nature of liturgical activity and then explores various dimensions of such activity Over the past fifty years there has been a remarkable surge of interest within the analytic tradition of philosophy in philosophy of religion Most of what has been written by participants in this movement deals with one or another aspect of religious belief Yet for most adherents of most religions participation in the liturgies and rituals of their religion is at least as important as what they believe One of the aims of this book is to call the attention of philosophers of religion to the importance of religious practice and to demonstrate how rich a topic this is for philosophical reflection Another aim is to show liturgical scholars who are not philosophers that a philosophical approach to liturgy casts an illuminating light on the topic that supplements their own approach Insofar as philosophers have written about liturgy they have focused most of their attention on its formative and expressive functions This book focuses instead on understanding what liturgical agents actually do It is what they do that functions formatively or expressively What they do is basic **The Politics of the Musical Theatre Screen Adaptation** Dominic Broomfield-McHugh, 2023 The first of three volumes The Politics of the Musical Theatre Screen Adaptation An Oxford Handbook traces how the genre of the stage to screen musical has evolved starting with early screen adaptations such as the Fred Astaire Ginger Rogers movie Roberta and working through to Into the Woods 2014 Many chapters examine specific screen adaptations in depth while others deal with broad issues such as realism or the politics of the adaptation in works such as *Li'l Abner* and *Finian's Rainbow* Together the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies **A Composer's Guide to Game Music** Winifred Phillips, 2017-08-11 A comprehensive practical guide to composing video game music from acquiring the necessary skills to finding work in the field Music in video games is often a sophisticated complex composition that serves to engage the player set the pace of play and aid interactivity Composers of video game music must master an array of specialized skills not taught in the conservatory including the creation of linear loops music chunks for horizontal resequencing and compositional fragments for use within a generative framework In *A Composer's Guide to Game Music* Winifred Phillips herself an award winning composer of video game music provides a comprehensive practical guide that

leads an aspiring video game composer from acquiring the necessary creative skills to understanding the function of music in games to finding work in the field. A Philosophy of the Screenplay Ted Nannicelli, 2013-01-17 Recently scholars in a variety of disciplines including philosophy film and media studies and literary studies have become interested in the aesthetics definition and ontology of the screenplay. To this end this volume addresses the fundamental philosophical questions about the nature of the screenplay. What is a screenplay? Is the screenplay art more specifically literature? What kind of a thing is a screenplay? Nannicelli argues that the screenplay is a kind of artefact as such its boundaries are determined collectively by screenwriters and its ontological nature is determined collectively by both writers and readers of screenplays. Any plausible philosophical account of the screenplay must be strictly constrained by our collective creative and appreciative practices and must recognize that those practices indicate that at least some screenplays are artworks.
