

WIRING A C-MAX AUDIO AUX INPUT WITH A VISTEON 6000CD

Hi All, Here is my experience of wiring in the Aux input on the Visteon 6000CD in my Ford Focus C-Max.

OK I have a 2006 Ford C-Max and unlike in some territories my C-Max does not come with the Aux input wired in, despite buying it from new!

So I set about finding a solution to plugging my iPod / MD / PDA into the head unit using the Aux Input.

First thing I did was ask Ford about plugging an iPod into the C-Max. Was told that that was not an option for the C-Max. Ugh!

Next I talked to the Denison dealer in my area about their ice>Link. I got told by various people at different times that a product was and was not available. This complete lack of help ended up with the only option from them being their universal FM product.

So I decided to wire in the Aux input myself, here is how I did it.

I decided that I wanted to have the Input in a convenient place that I could restore back to original when I sell the car. The options were limited and the one I settled on was the spare blanking face under the Front and Rear heated windows switches.

I contacted Ford Parts and got a spare cover easily from them. The Ford part number for it is 1356067 and should cost about £4.50 / \$9.

It is a stock part and although my dealer did not have it, they got within 24 hours for me.
