Knowledge, Ideology and the Politics of Schooling Rachel Sharp,2017-04-28 First published in 1980 this book argues that a theory of ideology is essential to a theory of education It relates developments in the Marxist theory of ideology to the analysis of schooling in a capitalist society Beginning with an appraisal of the early twentieth century liberal social theorists including Weber Durkheim Veblen and Mannheim it demonstrates that the weakness of their approaches arose from a failure to comprehend adequately the nature of capitalism It then outlines the state of the theory of ideology at the time and applies the concept in an analysis of contemporary schooling concluding with a discussion of its political implications The application of the theory of ideology offers important possibilities for a radical socialist strategy on education
