Magicians of the Gods Graham Hancock,2015-11-10 Graham Hancock s multi million bestseller Fingerprints of the Gods remains an astonishing deeply controversial wide ranging investigation of the mysteries of our past and the evidence for Earth s lost civilization Twenty years on Hancock returns with the sequel to his seminal work filled with completely new scientific and archaeological evidence which has only recently come to light Near the end of the last Ice Age 12 800 years ago a giant comet that had entered the solar system from deep space thousands of years earlier broke into multiple fragments Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs At least eight of the fragments hit the North American ice cap while further fragments hit the northern European ice cap The impacts from comet fragments a mile wide approaching at more than 60 000 miles an hour generated huge amounts of heat which instantly liquidized millions of square kilometers of ice destabilizing the Earth s crust and causing the global Deluge that is remembered in myths all around the world A second series of impacts equally devastating causing further cataclysmic flooding occurred 11 600 years ago the exact date that Plato gives for the destruction and submergence of Atlantis The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12 800 and 11 600 years ago But there were survivors known to later cultures by names such as the Sages the Magicians the Shining Ones and the Mystery Teachers of Heaven They travelled the world in their great ships doing all in their power to keep the spark of civilization burning They settled at key locations Gobekli Tepe in Turkey Baalbek in the Lebanon Giza in Egypt ancient Sumer Mexico Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia Everywhere they went these Magicians of the Gods brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price A memory and a warning to the future For the comet that wrought such destruction between 12 800 and 11 600 years may not be done with us yet Astronomers believe that a 20 mile wide dark fragment of the original giant comet remains hidden within its debris stream and threatens the Earth An astronomical message encoded at Gobekli Tepe and in the Sphinx and the pyramids of Egypt warns that the Great Return will occur in our time

 than 50 000 years ago mankind had no art no religion no sophisticated symbolism no innovative thinking Then in a dramatic
 and electrifying change described by scientists as the greatest riddle in human history all the skills and qualities that we
 value most highly in ourselves appeared already fully formed as though bestowed on us by hidden powers In Visionary
 Graham Hancock sets out to investigate this mysterious before and after moment and to discover the truth about the
 influences that gave birth to modern human mind His quest takes him on a journey of adventure and detection from the
 stunningly beautiful painted caves of prehistoric France Spain and Italy to remote rock shelters in the mountains of South
 Africa where he finds a treasure trove of extraordinary Stone Age art Hancock uncovers clues that lead him to travel to the
 depths of the Amazon rainforest to drink the powerful plant hallucinogen ayahuasca with Indian shamans whose paintings
 contain images of supernatural beings identical to the animal human hybrids depicted in prehistoric caves and rock shelters
 Hallucinogens such as mescaline also produce visionary encounters with exactly the same beings Scientists at the cutting
 edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of
 other dimensions Could the supernaturals first depicted in the painted caves and rock shelters be the ancient teachers of
 mankind Could it be that human evolution is not just the blind meaningless process that Darwin identified but something
 more purposive and intelligent something that we have barely even begun to understand Previously published as
