Resisting Spirits Maggie Greene, 2019-08-09 Resisting Spirits is a reconsideration of the significance and periodization of literary production in the high socialist era roughly 1953 through 1966 specifically focused on Mao era culture workers experiments with ghosts and ghost plays Maggie Greene combines rare manuscript materials such as theatre troupes annotated practice scripts with archival documents memoirs newspapers and films to track key debates over the direction of socialist aesthetics Through arguments over the role of ghosts in literature Greene illuminates the ways in which culture workers were able to make space for aesthetic innovation and contestation both despite and because of the constantly shifting political demands of the Mao era Ghosts were caught up in the broader discourse of superstition modernization and China's social and cultural future Yet as Greene demonstrates the ramifications of those concerns as manifested in the actual craft of writing and performing plays led to further debates in the realm of literature itself If we remove the ghost from a

ghost play does it remain a ghost play Does it lose its artistic value its didactic value or both At the heart of Greene's intervention is just reading the book regards literature first as literature rather than searching immediately for its political subtext and the voices of dramatists themselves finally upstage those of Mao's inner circle Ironically this surface reading reveals layers of history that scholars of the Mao era have often ignored including the ways in which social relations and artistic commitments continued to inform the world of art *Resisting Spirits* thus illuminates the origins of more famous literary inquisitions showing how the arguments surrounding ghost plays and the fates of their authors place the origins of the Cultural Revolution several years earlier with a radical new shift in the discourse of theatre

The Pursuit of Style in Early Modern Drama Matthew Hunter, 2022-08-25 The Pursuit of Style in Early Modern Drama examines how early modern plays celebrated the power of different styles of talk to create dynamic forms of public address Across the sixteenth and seventeenth centuries London expanded into an uncomfortably public city where everyone was a stranger to everyone else The relentless anonymity of urban life spurred dreams of its opposite of being a somebody rather than a nobody of being the object of public attention rather than its subject Drama gave life to this fantasy Presented by strangers and to strangers early modern plays codified different styles of talk as different forms of public sociability Then as now to speak of style was to speak of a fantasy of public address Offering fresh insight for scholars of literature and drama Matthew Hunter reveals how this fantasy which still holds us in its thrall played out on the early modern stage
