Department of the Army,1977 Index of Doctrinal, Training, and Organizational Publications United States. Department of the Army,1978

Tank Warfare, 1939-1945 Simon Forty,Jonathan Forty,2020-07-19 On the battlefields of Europe and North Africa during the Second World War tanks played a key role and the intense pressure of combat drove forward tank design and tactics at an extraordinary rate In a few years on all sides tank warfare was transformed This is the dramatic process that Simon and Jonathan Forty chronicle in this heavily illustrated history They describe the fundamentals of pre war tank design and compare the theories formulated in the 1930s as to how they should be used in battle Then they show how the harsh experience of the German blitzkrieg campaigns in Poland France and the Soviet Union compelled the Western Allies to reconsider their equipment organization and tactics and how the Germans responded to the Allied challenge The speed of progress is demonstrated in the selection of over 180 archive photographs which record as only photographs can the conditions of war on each battle front They also give a vivid impression of what armoured warfare was like for the tank crews of 75 years ago **Armor** ,2012 *US Airborne Tanks, 1939-1945* Charles C. Roberts,2021-03-23 This book explores the design and deployment of American airborne tanks from the earliest concepts to their actual use From their first introduction at the Battle of the Somme in the First World War tanks proved to be one of the most important military developments in the history of warfare Such was their influence on the battlefield both as infantry support and as an armored spearhead their presence could determine the outcome of any battle Another significant development during the 1930s was that of airborne forces with a number of countries experimenting with air dropped troops Such a concept offered the possibility of inserting soldiers behind the front lines to sow fear and confusion in the enemy s rear However such troops parachuting from aircraft could only be lightly armed thus limiting their effectiveness It is understandable therefore that much thought was given to

the practicalities of airlifting tanks that could be dropped or deposited alongside paratroopers Tanks though are heavy cumbersome vehicles and before there could be any thought of carrying them by air much lighter models would have to be produced Charles Roberts fascinating book opens with an investigation into the efforts in the 1930s by Britain the Soviet Union and the USA into the development of or adaptation of light tanks for airborne operations It was inevitably the start of the Second World War which accelerated efforts to produce an airborne tank and the means of delivery The use of conventional powered aircraft to carry the tanks limited their use to existing airfields which negated their employment with airborne troops landing in the open countryside Another method of delivery had to be found and this took the form of the glider which could be landed in a field behind enemy lines The combination of light tank and glider made the aim of airborne forces being supported by armor a realistic proposition and as a result the 28th Airborne Tank Battalion was born This detailed and comprehensive study deals with every aspect of design and deployment of American airborne tanks from the earliest concepts to their actual use by British units on D Day and during Operation Varsity the Rhine crossing Tank Gunnery ,1943 Department of the Army Pamphlet , **Department of Defense authorization for appropriations for fiscal year 1984** United States. Congress. Senate. Committee on Armed Services,1984 *Monthly Catalog of United States Government Publications* ,1991 **Army Modernization Information Memorandum (AMIM): Intensively managed system** United States. Department of the Army,1985 **Army Modernization Information Memorandum (AMIM)** United States. Department of the Army,1984 Monthly Catalogue, United States Public Documents ,1978 **Army Modernization Information Memorandum (AMIM): Standard form** United States. Department of the Army,1984 *United States Government Publications Monthly Catalog* ,1941 *Federal Information Processing Standards Publication* , Monthly Catalog of United States Government Publications, Cumulative Index United States.
