Tate Introductions Matisse:

Tate Introductions: Matisse Juliette Rizzi, 2014-10-21 French artist Henri Matisse 1869 1954 is commonly regarded along with Pablo Picasso and Marcel Duchamp as one of the three artists who helped to define the revolutionary artistic developments of the opening decades of the 20th century His mastery of the expressive language of color and drawing displayed in a body of work spanning over a half century has won him recognition as a leading figure in the development of modern art

Tate Introductions: Warhol Stephanie Straine, 2014-11-07 A central figure in pop art Andy Warhol 1928 1987 was one of the most significant and influential artists of the later twentieth century In the 1960s he began to explore the growing interplay between mass culture and the visual arts and his constant experimentation with new processes for the dissemination of art played a pivotal role in redefining access to culture and art as we know it today At the height of his fame Warhol claimed he was abandoning painting shifting his practice towards a commitment to the theoretically limitless channels of publishing film fashion music and broadcasting It was this transmission of art and radical ideas that embodied his ethical conviction that art should be for everyone Stephanie Straine is Assistant Curator at Tate Liverpool and specialises in American art of the 1960s Her lively yet authoritative text provides the perfect introduction to the life and work of a pioneering artist whose legacy extends into the digital age

Tate Introductions: Chagall Monica Bohm-Duchen, 2013-09-03 Born in 1887 in what is now Belarus Marc Chagall is one of the best known artists of the twentieth century His combination of wistful fantastical scenes and vibrant palette have ensured his enduring popularity but he is also considered an important pioneer of modern art whose sense of colour was rivalled only by that of Matisse Time spent studying in Russia and Paris developed what would embody Chagall's style for his entire career drawing inspiration from his Jewish identity folklore nostalgia and religion This together with the influence of the fauvist cubist and symbolist movements he experienced in Paris created his distinct style that was accessible but at the same time remote and otherworldly

Matisse's Poets Kathryn Brown, 2017-09-21 Throughout his career Henri Matisse used imagery as a means of engaging critically with poetry and prose by a diverse range of authors Kathryn Brown offers a groundbreaking account of Matisse's position in the literary cross currents of 20th century France and explores ways in which reading influenced the artist's work in a range of media This study argues that the *livre d'artiste* became the privileged means by which Matisse enfolded literature into his own idiom and demonstrated the centrality of his aesthetic to modernist debates about authorship and creativity By tracing the compositional and interpretive choices that Matisse made as a painter print maker and reader in the field of book production this study offers a new theoretical account of visual art's capacity to function as a form of literary criticism and extends debates about the gendering of 20th century bibliophilia Brown also demonstrates the importance of Matisse's self placement in relation to the French literary canon in the charged political climate of the Second World War and its aftermath Through a combination of archival resources art history and literary criticism this study offers a new

interpretation of Matisse's artist's books and will be of interest to art historians, literary scholars and researchers in book history and modernism. *Tate: Brief Lessons in Creativity* Frances Ambler, 2019-04-04 Creative people are curious, flexible, persistent and independent with a tremendous spirit of adventure and a love of play. This book does just that. **An Introduction to Art** Charles Harrison, 2020-03-10 At once engaging, personal and analytical, this book provides the intellectual resources for the critical understanding of art. Charles Harrison's landmark book offers an original, clear and wide-ranging introduction to the arts of painting and sculpture, to the principal artistic print media and to the visual arts of modernism and post modernism. Covering the entire history of art from Paleolithic cave painting to contemporary art, it provides foundational guidance on the basic character and techniques of the different art forms, on the various genres of painting in the Western tradition and on the techniques of sculpture as they have been practiced over several millennia and across a wide range of cultures. Throughout the book, Harrison discusses the relative priorities of aesthetic appreciation and historical inquiry and the importance of combining the two approaches. Written in a style that is at once graceful, engaging and personal as well as analytical and exact, this illuminating book offers an impassioned and timely defense of the importance and value of the firsthand encounter with works of art, whether in museums or in their original locations.
