

FOREWORD

The SUZUKI GSXR600 has been developed as a new generation motorcycle in the GSXR-series. It is packed with highly advanced design concepts including a new Twin-Cone Combustion Chamber, a variable valve-timing, a fully balanced engine system and a variable rate suspension. Combined with precise control and easy handling the GSXR600 provides excellent performance and extending riding-enjoyment.

This service manual has been produced primarily for experienced mechanics whose aim is to inspect, adjust, repair and service SUZUKI motorcycles. Experienced mechanics and well-trained technicians will find this manual an extremely useful repair guide. This manual contains the most up-to-date information at the time of publication. The owner will be alerted to updates or modifications to this manual at any time.

IMPORTANT

All street-legal Suzuki motorcycles with engine displacement of 50 cc. or greater are subject to first-generation Pollution Agency emission regulations. These regulations set specific standards for vehicle emission output levels as well as particular servicing requirements. The owner receives specific information required to properly inspect and service the GSXR600 in accordance with all EPA regulations. It is strongly recommended that the chapter on Emission Control, Periodic Servicing and Calibration be thoroughly reviewed before any type of service work is performed.

Further information concerning the EPA emission regulations and U.S. Suzuki's emission control program can be found in the U.S. SUZUKI EMISSION CONTROL PROGRAM MANUAL, SERVICE BUS-1270A.
