Art and Merchandise in Keith Haring's Pop Shop Amy Raffel, 2020-12-30 As one of the first academic monographs on Keith Haring this book uses the Pop Shop a previously overlooked enterprise and artist merchandising as tools to reconsider the significance and legacy of Haring's career as a whole Haring developed an alternative approach to both the marketing and the social efficacy of art he controlled the sales and distribution of his merchandise while also promulgating his belief in accessibility and community activism He proved that mass produced objects can be used strategically to form a community and create social change Furthermore looking beyond the 1980s into the 1990s and 2000s Haring and his shop prefigured artists emerging self aware involvement with the mass media and the art world's growing dependence on marketing and commercialism The book will be of interest to scholars or students studying art history consumer culture cultural studies media studies or market studies as well as anyone with a curiosity about Haring and his work the 1980s art scene in New York the East Village street art art activism and art merchandising

English Mechanic and Mirror of Science, 1877 **Face Value** Autumn Whitefield-Madrano, 2016 Whitefield-Madrano examines the relationship between appearance and science social media sex friendship language and advertising to show how beauty actually affects us day to day Through research and interviews with dozens of women across all walks of life she reveals surprising findings like that wearing makeup can actually relax you that you can convince people you're better looking just by tweaking your personality and the ways beauty can be a powerful tool of connection among women Amazon.com

English Mechanic and Mirror of Science and Art, 1887 Maya Figurines Christina T. Halperin, 2014-05-01 Rather than view the contours of Late Classic Maya social life solely from towering temple pyramids or elite sculptural forms this book considers a suite of small anthropomorphic zoomorphic and supernatural figurative remains excavated from household refuse deposits Maya Figurines examines these often neglected objects and uses them to draw out relationships between the Maya state and its subjects These figurines provide a unique perspective for understanding Maya social and political relations Christina T. Halperin argues that state politics work on the microscale of everyday routines localized rituals and small scale representations Her comprehensive study brings together archeology anthropology and art history with theories of material culture performance political economy ritual humor and mimesis to make a fascinating case for the role politics plays in daily life What she finds is that by comparing small scale figurines with state sponsored often

large scale iconography and elite material culture one can understand how different social realms relate to and represent one another In Maya Figurines Halperin compares objects from diverse households archeological sites and regions focusing especially on figurines from Pet n Guatemala and comparing them to material culture from Belize the northern highlands of Guatemala the Usumacinta River the Campeche coastal area and Mesoamerican sites outside the Maya zone Ultimately she argues ordinary objects are not simply passive backdrops for important social and political phenomena Instead they function as significant mechanisms through which power and social life are intertwined

Discussions in Church Polity Charles Hodge,1878 The Church and Its Polity Charles Hodge,1879 **The Hidden Consumer** Christopher Breward,1999 This book covers various aspects of the social history of politics on both sides of the Iron Curtain in the period 1945 to 1956 The contributors come from a range of countries Austria Germany Hungary Slovakia and the United Kingdom and comprise a mixture of established historians and younger scholars engaged in pioneering research The individual chapters are organised into four sections dealing with workers ethnic and linguistic minorities youth and women In order to enhance the comparative character of the volume the four chapters contained in each section consider the position of these social groups in respectively West Germany East Germany Austria and either Czechoslovakia or Hungary Major themes include the absence of popular revolutions in the aftermath of World War Two the re imposition of social control by post war elites the attempt to restore pre war gender relations and the failure of Communist parties to win popular support The chosen time frame saw most of the decisive developments which set the pattern for the remaining Cold War period and is therefore of key importance for any student of this topic

The Future of the Body Michael Murphy,1993-04-21 In the oral and written histories of every culture there are countless records of men and women who have displayed extraordinary physical mental and spiritual capacities In modern times those records have been supplemented by scientific studies of exceptional functioning Are the limits of human growth fixed Are extraordinary abilities latent within everyone Is there evidence that humanity has unrealized capacities for self transcendence Are there specific practices through which ordinary people can develop these abilities Michael Murphy has studied these questions for over thirty years In *The Future of the Body* he presents evidence for metanormal perception cognition movement vitality and spiritual development from more than 3 000 sources Surveying ancient and modern records in medical science sports anthropology the arts psychical research comparative religious studies and dozens of other disciplines Murphy has created an encyclopedia of exceptional functioning of body mind and spirit He paints a broad and convincing picture of the possibilities of further evolutionary development of human attributes By studying metanormal abilities under a wide range of conditions Murphy suggests that we can identify those activities that typically evoke these capacities and assemble them into a coherent program of transformative practice A few of Murphy s central observations and proposal include The observation that cultural conditioning powerfully shapes or extinguishes metanormal capacities The proposition that we cannot comprehend our potentials for extraordinary life without

an empirical approach that involves many fields of inquiry and different kinds of knowing The notion that a widespread realization of extraordinary capacities would constitute an evolutionary transcendence analogous to the rise of humankind from its primal ancestry The proposal that all or most instances of significant human development are produced by a limited number of identifiable activities such as disciplined self observation visualization of desired capacities and caring for others The idea that a balanced development of our various capacities is possible through integrated practices In *The Future Of The Body* Murphy states that such practices can carry forward Earth s evolutionary adventure and lead humanity to the next step in its development
