Terrorist Rehabilitation and Community Engagement in Malaysia and Southeast Asia Mohd Mizan Aslam, Rohan Gunaratna, 2019-11-04. The contributors to this book analyse the different approaches and modes of terrorist rehabilitation that have been attempted by Malaysia and other countries in Southeast Asia. With an emphasis on the particular contexts within which they operate, this book examines the factors that determine the relative successes and failure of a wide range of community initiatives in integrating terrorists back into society. These initiatives include using methods based on social psychology, religion and entrepreneurship to develop a comprehensive approach to rehabilitating and deradicalizing terrorists in Malaysia as well as Singapore, Indonesia and the Philippines. As such, it makes an important contribution to the global policy debate coloured by the unique characteristics of the South East Asia region. A valuable resource for researchers and policymakers seeking constructive ways to counter violent extremism.

Transformation and Empowerment through Education Raqib Chowdhury, 2018-11-19. *Transformation and Empowerment through Education* challenges the normalisation of Western discourses as the optimal choice for empowering education. The book aims to reconstruct our relationship with education and employs contemporary theories in order to understand some of the most persistent phenomena in contemporary education and its role in our lives. Written by professionals with experience of a wide range of academic and institutional conventions and traditions and from diverse ethnocultural backgrounds, this book effectively presents a global perspective on educational practices both inside and outside the classroom. The range of topics covered includes equity, access, inclusivity, social justice, leadership and the internationalisation of teaching. This book, based on empirical studies using key methodologies, is ideal for academics and postgraduate researchers interested in critical pedagogy, educational studies and educational linguistics as well as educators and policymakers around the world.

Building the Future: Innovation, Sustainability, and Collaboration in Construction Ramabodu Molusiwa, Stephan, Clinton Aigbavboa, Samuel Herald Chikafalimani, 2025-09-26. This conference proceedings present cutting edge research that is shaping the future of the construction industry. It has a strong emphasis on sustainability, digital transformation and emerging technologies. It contains contributions from experts in academia, industry and policy who engage in critical discussions on how artificial intelligence, digitalisation and innovation can drive efficiency, enhance project outcomes and modernise the sector. The proceedings address key challenges including skills shortages.

infrastructure limitations and adoption barriers to help foster industry wide transformation The cidb conference attracted researchers industry professionals policymakers and stakeholders from across the construction sector and its proceedings offer valuable insights into emerging trends and best practices The conference proceedings are designed for those seeking to explore the intersection of technology sustainability and construction management in an evolving global landscape

Attachment Theory and the Teacher-Student Relationship Philip Riley, 2010-09-13 Explains how adult attachment theory offers different ways to examine professional teaching relationships classroom management and collegial harmony This book highlights the key aspects of teacher student relationships that teachers and teacher educators should know

Multinational Companies, Knowledge and Technology Transfer Alper Sönmez, 2013-12-18 This book provides evidence on how FDI leads to knowledge and technology transfers towards domestic firms by paying attention to the role of multinational companies The author presents a comprehensive empirical research conducted at firm level in the Turkish automotive industry Using a representative sample of face to face in depth interviews with top executives and a survey of top level managers of domestic suppliers the research analyzes the existence channels intensity and determinants and the kind of transfers that occur at both inter and intra firm level in the industry The author contends that policies aimed at attracting FDI flows should be re examined under the findings and insights of this study since it is a necessary although not sufficient condition to have an efficient absorptive capacity level and or skilled human capital stock in order to benefit from these flows This study has policy implications for the automotive industry as well as practical recommendations for the public institutions and top executives in emerging country companies and multinationals in order to conceive and implement science and technology policies in supporting the knowledge transfers
