This document was the official training manual for every allied spy and counter espionage agent in World War 2. Written by the S O E M I 6, it was soon picked up and used by the American OSS, the originator of the CIA. In great detail, it describes such subjects as Explosives, Fieldcraft, Cyphers, and Propaganda. Care has been taken to deliver the manual in its original style and format. The document is dated at 1943 and as far as we know is published in its entirety. At over 400 pages, it is both exhaustive and painstakingly detailed. For instance: 5. Searching a Prisoner if you are armed: Kill him first. If that is inconvenient, make him lie face to the ground, hands out in front of him. Knock him out with rifle butt, side or butt of the pistol, or with your boot. Then search him. Nice huh? A great read, superb information, and a unique insight into a dark age of history.
