**Prison Vocational Education and Policy in the United States** Andrew J Dick,William Rich,Tony Waters,2016-08-05 This book explores California s prison system in the context of vocational education reform For prisons in the early twenty first century ideologies of evidence based management meant that reform efforts to change the purpose of prisons from

punishment to rehabilitation through vocational education required evidence to justify policy prescriptions Yet who determines what constitutes evidence In political environments solutions are typically pre conceived which means that the nature of the evidence collected is also preconceived As a result key assumptions about outcomes are often wished away to show improvement and be accountable Through a detailed analysis interspersed with stories from the authors experiences behind the wall among California s prison population the authors challenge the nature of evidence based research as used in the prison environment In the process they describe the thorny problems facing reformers      **Revitalization and the U.S. Economy** United States.
