Gladden,2024-02-14 What would humanity s future look like if the isle of Utopia had been real and had guided the creation of a joyful global civilization free from all selfishness competition and discord Utopian Confederation From the Mall to the Stars presents such a world In the 22nd century human society exists not as an array of rival states but as a halcyon confederation of all living persons everywhere that s voluntarily reaffirmed with each new day Here it isn t just material goods that are held in common even persons innermost thoughts are a shared public resource thanks to advanced neurocybernetics Written laws and politics no longer play any role in society as all individuals are raised to embrace a single vision for achieving the greater good and to live it continually Scientific inquiry and thaumaturgy go hand in hand as human beings seek to understand and shape their place in the cosmos through both technological and miraculous means And now the perfection of SquarM reactors and the SNuP drive has allowed construction of the first vessel capable of completing an interstellar journey in decades rather than centuries The colonies on the Moon and the Cinnabar Planet of Euthyphrar have already expanded the horizons of human experience but now it s hoped that a multigenerational voyage to the planets of Arcana Centauri might shed light on the greatest spiritual and intellectual puzzle still facing humankind namely is it really possible that our Solar System is home to the only life in the cosmos Is Earth the focal point of the universe And if intelligent life is abundant in other star systems why have we been unable to discover any evidence of it despite centuries of effort The Utopian

Confederation series is a game of philosophical theological scientific technological and sociopolitical exploration and From the Mall to the Stars is the 200 page sourcebook that introduces its hopeful pacific and intellectually inquisitive world In this volume you ll discover The administrative structure that organizes 21 billion human beings into communities from households and agathanias up through conurbs of millions of residents The ingenuity of the 200 000 persons living offworld in colonies spacebases and spacevessels Technologies like the Wellspring and the SGI Seliadne that make real time cognitive publication possible Elements of Utopian Synergeticist thought including ratiomysticism thaumaturgy hypophenomics Iridic Bubble Theory and the field of aetheromechany that conceptualizes the natural sciences as applied angelology The societal spheres of the pragmatic demeyne metapsychic demeyne and Ecclesia Peregrinans that operate in natural synchronicity Why money and private possessions don t exist but shopping malls play a pivotal societal role Cosmopraxis axionomy and the management of fields like housing transportation energy agriculture education and healthcare Utopian aesthetics architecture and fashion The stats of the biodimensional aretalogue and propellibrium through which persons assess their own psychic strengths and failings SQuarM reactors SNuP drives HERUs and the basics of starvessel architecture The cosmic enigma that is the Imperceptance the nature of the Starflume Collegium and the aims of the mission to Arcana Centauri The historical path from the ancient Utopian Commonwealth to the reunification of humanity and the Utopian Confederation of ADI 2175 Character sheets for a group of four 22nd century Confederation citizens *Subgroup Complexes* Stephen D.
