The Oxford Handbook of Sports History Robert Edelman, Wayne Wilson, 2017-04-06 Orwell was wrong Sports are not war without the shooting nor are they war by other means To be sure sports have generated animosity throughout human history but they also require rules to which the participants agree to abide before the contest Among other things those rules are supposed to limit violence even death More than anything else sports have been a significant part of a historical civilizing process They are the opposite of war As the historical profession has taken its cultural turn over the last few decades scholars have turned their attention to subject once seen as marginal As researchers have come to understand the centrality of the human body in human history they have come to study this most corporeal of human activities Taking early cues from physical educators and kinesiologists historians have been exploring sports in all their forms in order to help us answer the most fundamental questions to which scholars have devoted their lives We have now seen a veritable explosion excellent work on this subject just as sports have assumed an even greater share of a globalizing world's cultural political and economic space Practiced by millions and watched by billions sports provide an enormous share of content on the Internet This volume combines the efforts of sports historians with essays by historians whose careers have been devoted to more traditional topics We want to show how sports have evolved from ancient societies to the world we inhabit today Our goal is to introduce those from outside this sub field to this burgeoning body of scholarship

At the same time we hope here to show those who may want to study sport with rigor and nuance how to embark on a rewarding journey and tackle profound matters that have affected and will affect all of humankind

Clement David L. Balch,2023-06-19 In this book the author draws on two original sources on a Greek biographer historian and rhetorician Dionysius of Halicarnassus as well as on Pompeian domestic art and architecture Generally NT scholars read texts but Greeks and ancient Romans loved beauty The walls and floors of their houses were decorated with thousands of colorful frescoes and mosaics art that two millennia later is still on display in Pompeii Christians lived and worshipped in those typical houses relating the art to NT texts generates many intriguing new questions What stories myths did Greeks and Romans see every day What were their sports and how violent were they Many NT scholars know as much or more Latin than they do Greek and they therefore cite the Latin historian Livy rather than the Greek Dionysius who wrote a century before the first Christian historian Luke Dionysius rhetoric expressed values shared across cultures by Greeks Romans and Jews e g by the historian and rhetorician Josephus some values that Luke also shares Dionysius makes clear that cities and ethnic

groups had to praise how they treated emigrant foreigners questions handled differently by Josephus and by Luke This enables new interpretations of Jesus inaugural speech in Luke 4 and of Peter s second Pentecost speech in Acts 10
